"MID-WINTER" COLLECTION OF EVER-BLOOMING ROSES. ALL NEW KINDS.

We have made a selection of the very best Roses for Winter blooming, embracing a wide range of color. We can commend this collection to all who desire to grow Roses in the house during Winter. Price, for the collection of six choice "Mid-Winter" blooming Roses only 75 cents.

General Robert E. Lee.—This Rose, which we introduced the past Spring, will produce more beautiful Roses in the Winter than any Rose we grow. A small bush will produce hundreds of bloom. Color orange-yellow. Very rich and beautiful. Extra fine. Price, 35 cents each.

Bridesmaid.—New. The most elegant pink Rose. Very large. Buds extra fine. Price, 15 cents each.

Champion of the World.—It is the champion bloomer. It commences to bloom as soon as started to grow, and continues to bloom in the greatest profusion, both Winter and Summer. A rich, deep, rosy-pink or flesh color. Price, 15 cents each.

Kaiserin Augusta Victoria.—A new pure white Rose. Very large and double. A royal Rose in every respect. A Rose we can recommend. Price, 15 cents each.

Christine de Neve.—New. This is a great Winter-blooming Rose, with buds and flowers of the largest size. Color richest crimson. The best Rose of its color. Price, 15 cents each.

Star of Gold.—This is the best all round deep, golden-yellow Tea Rose that is grown. The buds are very large and shapely, while the flower is double to the center, and it is a deeper golden-yellow than Marechal Neil. Don't fail to try it. Price, 15 cents each.

REMEMBER, this entire collection of six "Mid-Winter" blooming Roses for only 75 cents, costing separately \$1.10. Or these six "Mid-Winter" blooming Roses in two-year-old size for \$2.00.

Our large, handsomely illustrated Catalogue of one hundred and four pages, lithographed cover and plates in colors, mailed for 10 cents in stamps. It contains all kinds of Roses, Plants and Bulbs, also a complete assortment of flower and vegetable seeds. It tells how to get your plants free by getting up clubs. Don't fail to get it.

Choice Roses at 5 Cents.

Our "Rainbow" Collection of 20 Roses for \$1.00. Prepaid by Mail.

THE ROSES we send are on their own roots, and will bloom freely this Summer, either in pots or planted in yard. They are hardy ever-bloomers. We send instructions with each order how to plant and care for them. Please examine the below list of twenty choice fragrant monthly Roses, and see if you can duplicate them anywhere for an amount so small as ONE DOLLAR. They are nearly all new kinds. We guarantee them to reach you in good condition. THE "RAINBOW" COLLECTION OF TWENTY ROSES FOR ONE DOLLAR MUST BE ORDERED COMPLETE. We cannot allow customers to select one or two, or half of the collection at five cents each. Neither can we make changes in the collection. Even if you have several plants of some of the kinds offered, you can stand another one at five cents.

We guarantee this collection to be the best dollar's worth of Roses by far that you have ever purchased.

Champion of the World.—(New.) This is a wonderful blooming Rose, being in flower both Winter and Summer. It should be called a daily Rose, as we have had beautiful buds and Roses on plants of this variety every day in the year. It is a rich, deep rosy-pink, darker and richer than *Hermosa*. Perfectly lovely.

Golden Gate.—(New.) The flowers are extra large, very free and finely formed. The buds are long and of the most desirable form. The color is a rich, creamy-white, beautifully tinged with fine golden-yellow. A very rare Rose.

Mademoiselle Franciska Kruger.—This beautiful Rose charms everybody. There is hardly a day in the year that our mail does not bring us words of commendation for this lovely Rose. In its shading of deep coppery-yellow and peach it stands unique and distinct from all others. It colors up best with cool nights.

The Bride.—Everybody knows that the "Bride" is the best white Rose, therefore it is useless for us to try to sing its praise. Its only drawback is that it pinks in hot weather; at other seasons it is the purest white. Even with this fault, you will never find a better white Rose.

Bridesmaid.—(New.) This Rose is fast superseding *Catherine Mermet*, identical with it in growth and shape of flower, differing only in its color, which is the most charming pink imaginable.

Pearl of the Gardens.—No yellow Rose in cultivation can equal this in its profusion of deep golden-yellow Roses. The only rival of *Marechal Neil*.

Queen's Scarlet.—Intense deep, rich, velvety-scarlet and a profuse bloomer. You make no mistake in purchasing this Rose.

Princess Beatrice.—You cannot possibly imagine a more beautiful Rose. Lovely canary yellow, edged with bright rose. Nothing like it in all the Rose family.

The Queen.—A pure snow-white, makes good, finely-formed buds, is quite full, showing the center but slightly when fully open. The petals are thick and of good substance, opens well, is very sweet, and has proved valuable, both for forcing and open ground planting.

Etoile de Lyon.—Deep golden-yellow, very large and full. Everybody's favorite. None better of its color.

Princess of Wales.—This grand new Tea is almost unsurpassed in beauty. The color is a beautiful amber-yellow, deepening toward the center to orange or coppery-yellow, delicately tinged and shaded with crimson.

Rheingold.—The name *Rheingold* conveys but little of the true worth and beauty of this flower. The buds are long and oval, and the color is a Naples yellow, shaded with orange. The petals pass in the center to a deep citron. A beautiful flower of most extraordinary color.

Star of Gold.—(*Etoile d'Or*.) Full, round, of the largest size, perfectly double to the center, oftentimes in immense clusters, blooms quickly and profusely, and besides being exceedingly beautiful is entirely distinct from all others. The color is a deep golden-yellow, with a rich citron center. A Rose which has won our favor easily. If you desire a large, rich, deep yellow Rose, try it.

Waban.—This Rose is fast gaining favor. A large, handsome-shaped bud and flower of brightest pink or deep rose.

Henry M. Stanley.—(New.) Amber-rose, delicately tinged with apricot-yellow towards the center. Very fragrant. It is a beauty.

Souvenir of Wootton.—A large, handsome flower of the richest, bright red. Very free flowering and very fragrant. This is one of the best Roses ever introduced.

Catherine Mermet.—Next to *Marechal Neil*, this is probably the best known of all Roses. A beautiful, light pink, with immense large buds.

Madame Camille.—A good, strong-growing Rose, with remarkable colors of salmon and rosy-flesh. A great favorite.

Madame Caroline Testout.—(New.) One of the very best Roses of late introduction. Large, handsome flowers of glowing pink.

Christine de Neve.—(New.) The buds are long and finely shaped. The color is a clear, rich, maroon-red, passing to lake, center sometimes marked with silvery-white. The petals are imbricated and the flowers are deliciously sweet.

Hardy Ever-blooming Roses.

Our "SUNSET" Collection of
15 Hardy Ever-Blooming
 : Roses for only : **\$1.**

We have often been asked to name the hardiest Roses that are ever-bloomers. We have combined in this collection only such kinds as bloom freely, and that will stand zero weather. No change will be made in the collection. It must be ordered complete. : : : : : : : : : :

In ordering, say "Sunset" Collection of Roses, and we will know what you want.

Meteor.—A velvety-red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid. A beautiful open Rose, a free bloomer, and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green. The best rich, red Rose for the garden ever introduced. Our correspondents from California say that the flower of Meteor equals General Jacqueminot, and it will produce fifty flowers to Jacqueminot's one.

Countess of Roseberry.—We have in this very charming variety probably the most beautiful Rose grown. The color is a satiny-pink in the center, and deepens to the outer petals to a bright rose. This feathery shading gives it the appearance of two distinct colors. It has completely captivated us. Very free-flowering.

Summer Queen.—We have thoroughly tested it, and can recommend it as being entirely hardy. It is of such vigorous growth that if planted close to a wall or fence it may be trained like a climbing Rose. So prolific of bloom is it that small plants in our grounds, a foot high, were one mass of flowers. In color it is a bright, silvery-pink, full and double. Like its grand, deep-colored prototype, "American Beauty," we believe it has come to stay, and so we welcome this fine addition to our hardy, free-blooming Roses, with a recommendation to all our customers to try it.

Clothilde Soupert.—The color is a French white, deepening to a rosy-blush in the center, exceeding in distinctness of shadings the well-known Malmaison. Its greatest value lies in its compact, vigorous habit and wonderful profusion of bloom, even the smallest plants being literally covered with flowers. The form and substance of the flowers are so perfect that the hottest weather does not cause a deterioration of either, so that even in midsummer a bouquet of splendid buds and open flowers can be obtained from this fine variety. Valuable as it is for garden purposes, it is more so for pot culture, and ranks as first for blooming in the dwelling house.

Dinsmore.—It is a vigorous, healthy Rose, of dwarf, branching habit, and is simply loaded with flowers all Summer long, being even more profuse than most of the tender "ever-blooming" Roses. The flowers are large, perfectly double, and of a dazzling scarlet-crimson color, and have the rich, spicy fragrance peculiar to the best Hybrid Roses. We can recommend it as being the finest garden Rose ever offered.

"Mrs. DeGraw."—From early Summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich glossy pink, delightfully fragrant, and is such a strong, vigorous grower that it is almost impregnable against attacks of the insects which usually destroy some of our finest Roses; thus it is certain to be unequalled for the garden or cemetery. A royal Rose.

La France of '89.—One notable peculiarity of this variety is its long, elegant buds, which are often two to three inches long, while the expanded flowers are of immense size. Another strong point is its bright color, which is very nearly scarlet, sometimes lined and bordered with pure white. The very brightest and most brilliant Rose we know. Still another point in its favor is the sweet fragrance—a precious trait in the Rose. Undoubtedly a Rose of enchanting beauty. It will, without doubt, please you.

Captain Christy.—The flowers are of magnificent form, very double, and stand erect in their martial bearing. Color a fresh, delicate pink, with deeper shading in the center of the flower, the whole flower possessing a bright, satiny appearance. It is a free bloomer.

Madame Schwallier.—It is very free in bloom, and has the fragrance of the old June Roses. The color is a bright, rosy-flesh, paler at the base of the petals, and deepening on the edges. Apt to come in clusters, which are excellent for cutting. This grand Rose has more perfume than any that we offer. Try it. It is magnificent.

Madame Isaac Pereire.—One of the best Roses we have. Very hardy, and a constant bloomer. It has large, beautiful foliage, and is a vigorous grower. The flowers are a beautiful, vivid carmine, and bloom throughout the season.

Maurice Ravier.—Its blossoms are perfectly double to the center, and of the most perfect shape, both in bud and blossom, while its color is a degree of loveliness which few Roses can equal, being a rich, deep, rosy pink, darker and richer than Hermosa, and a shade the delicate richness of which is seldom seen. Its size is very large for an ever-bloomer, often as large and fine as La France, or the best Hybrid Perpetuals.

Striped La France (Md. Angeline Veysset).—Everybody knows the beautiful La France—a Rose that has always had such a ready sale that the demand has never been fully met. Striped La France combines all the good qualities of La France in growth, fragrance, shape of bud and flower; in fact, differs not from it except in color. It is nicely striped, the marking being plain and distinct, the variegation a beautiful bright rose on a satin-pink ground.

White La France.—This new Rose has prominence from the time of its introduction. It is identical with La France except its color, which is almost pure white. The shading of fawn it has only enhances its beauty. A grand Rose.

La France.—Too well known to need description. It is acknowledged everywhere as the "Queen of Roses."

Duchess of Albany.—The best pink Rose by far ever introduced. It is a beauty.

"IRONCLAD" COLLECTION OF

FOURTEEN HARDY ROSES,

Including one Climbing and one Moss Rose, for

—\$1.00.—

Most of them new kinds. This collection cannot be divided, but must be ordered complete.

In ordering, say "Ironclad" Collection of Roses, and we will understand what you want.

Gustave Piganeau.—Flowers extra large, equaling Paul Neyron in size, double, and of cup form. Color a beautiful shade of bright red and brilliant carmine. Received four medals, and was illustrated in *Journal des Roses*. This is the finest Hybrid of recent introduction. The bud is very large and full. We believe this to be the very best crimson Hybrid Rose grown.

Albane d'Arneville.—Splendid new pure white Hybrid Perpetual, commences to bloom almost as soon as planted, and blooms all through the Summer until late in the Fall. The flowers are pure white, sometimes very faintly tinged with pink, very large, very double and full, and delicately perfumed. Extra fine.

Marshal P. Wilder.—This fine new Rose originated in this country and was named in honor of the venerated President of the Pomological Society. It is a Rose of unusual excellence. Flowers are large, semi-globular, full, and of good substance. Color a bright, scarlet-crimson, richly shaded with maroon, very fragrant, and a free bloomer.

Mrs. John Laing.—An elegant, new, constant blooming Hybrid Perpetual Rose. One of the very finest of its class. Color a clear, bright shell pink, exquisitely shaded. The buds are long and pointed, the flowers extra large and full borne on long stems and exceedingly sweet. Valuable both for open ground and greenhouse culture. A most exquisite Rose.

Oscar II, King of Sweden.—This is by far the richest Rose yet introduced. It is so intense in color that the exclamation on seeing it is, "Oh, that lovely black Rose!" It is very velvety in texture. A most superb Rose, and one that will always be found in the standard list of Roses, as it has come to stay.

Gloire de Lyonaise.—This grand Rose is the only yellow Hybrid Perpetual we have. It cannot be called a deep yellow, but rather a pale shade of chamois or salmon-yellow, deepest at center, sometimes passing to a rich, creamy white, finely tinted orange and fawn. The flowers have all the beauty of Tea Roses, and are large and full, and delightfully sweet. This we consider one of the very best Roses we have ever seen. It will be sure to delight you.

Anna de Diesbach.—(Glory of Paris) Brilliant crimson, sometimes shaded with bright maroon, long, pointed buds, and large, finely-formed, compact flowers, very full and sweet. One of the best.

Comte de Paris.—A new Rose of great promise, bright, vivid, poppy crimson when first opening, becoming darker and delicately shaded with carmine as the flowers expand. Very large and full, petals of good substance and very sweet. A magnificent Rose.

Paul Neyron.—Deep shining Rose, very fresh and pretty. Flowers large, often measuring five inches in diameter, and it has this merit, though very large, the buds always develop fine, perfect Roses. It is, moreover, a good, strong grower, with nice, almost thornless stems, which often attain six to seven feet in a single season. We know of no Rose possessing so many good points to recommend itself as Paul Neyron. Growaby thousands in the eastern cities for its good, free-blooming qualities.

Charles Dickens.—This we regard as a most wonderful Rose. It is vigorous in growth, the leafage is large and fine, and the flower startles all who see it by its great size and loveliness. The color is a rich, glossy carmine, tinged with bright crimson, large, globular flowers, full and sweet.

General Jacqueminot.—A rich, velvety-crimson, changing to scarlet-crimson. A magnificent Rose, equally beautiful in the bud state or open. This is the best known of all Hybrid Perpetuals, and is without a rival in fragrance and richness of color. It is, moreover, as easy of cultivation as many of the more common varieties, and perfectly hardy.

Madame Joseph Desbois.—A most vigorous grower and persistent bloomer. The flowers are very large and double, on long, stiff stems, of fine, waxy texture and substance, and last a long time in fresh state after being cut. The color is a pure snow-white. This we commend as being a very desirable sort. We had buds on this Rose four inches through. A veritable beauty.

Glory of Mosses.—This, when it has become well established, is one of the most beautiful Roses imaginable. The open flowers are very bright and of most delicious fragrance. Color a rich, glossy pink, tinged crimson, large and globular. The buds are almost hid with beautiful green moss. A superb sort, and easily grown.

Seven Sisters.—A rampant, hardy climber, bearing flowers in large clusters. Deep blush, changing as the flower gets older to carmine-rose and white, the whole plant appearing a perfect mass of bloom and making a charming effect.

ROSES.

THE FIVE NEAREST HARDY BLACK.

The Set of Five for 60 Cents. No Further Discount on this Offer.

If you wish the nearest black Hardy Hybrid Perpetual Roses, you should order the varieties named below. They are the darkest of any, and exceedingly beautiful.

Baron de Bonstetten.—Has splendid large flowers, very double and full. The color of this Rose is a rich, dark red, passing to a deep, velvety-maroon. It is highly scented and very beautiful.

Prince Camille de Rohan.—A very dark, rich, velvety-crimson, passing to intense maroon, shaded black. Large, full flowers, looking at a little distance as if they were really black. One of the darkest Roses, and very handsome.

Souvenir de Duchere.—A superb Rose. Extra large, compact flowers, very full, double and sweet. Color a beautiful and

brilliant scarlet, deepening to dark, glowing crimson. Very rich and handsome.

Antoine Quihon.—Extra large flowers, very full, compact and regular form. Color a rich, violet crimson, elegantly tinged and shaded maroon-red, a free bloomer, and very sweet.

Black Prince.—A superb Hybrid Perpetual Rose, a very dark, blackish red, richly shaded with violet crimson extra large, full flowers, delightfully perfumed, good, bushy habit, a hardy and vigorous grower and free bloomer. One of the very best dark Roses.

SPECIAL OFFER.—The "Ironclad" Collection and Five Nearest Black Roses for \$1.50.

THE 5 BEST

CLIMBING ROSES.

We here offer five of the greatest of all Climbing Roses, each one being distinct in itself, embracing Yellow, White, Crimson, Pink, and intermediate shades. Nothing like this offer has ever been made. They are all ever-bloomers, and will be sure to please you.

In ordering say "5 Best Climbing Roses."

Mary Washington.—This is no doubt the most famous Rose of the century, made so by the history with which it is associated, the original Rose bush being planted by no less a personage than George Washington. It is a lovely Rose, and usually comes in large clusters of the purest white, and very fragrant. It will live out anywhere, as it is perfectly hardy and a perpetual bloomer. Price, 20 cents each.

Waltham Queen.—This splendid new ever-blooming climbing Rose is introduced from England, where it has given great satisfaction. It is a valuable acquisition. Hardy in the North. We had plants of this variety out last Winter which stood a temperature of zero without injury, and have bloomed continuously the past season. It is a strong grower and continuous bloomer. The flowers are large, full and sweet. The color is a rich, scarlet-crimson, very beautiful, and a profuse bloomer. Nothing can compare with this for beauty of bud and foliage, and it literally lavishes in the greatest profusion its beautiful, rich, red flowers of magnificent size. This Rose has been awarded first premium wherever exhibited. It has our highest praise. Price, 20 cents each.

Firsten Bismarck.—As its name would indicate, this is a Rose of the first quality, an improvement on Gloire de Dijon. The color is a blending of amber, carmine and cream, and of delicious fragrance. One of the most exquisite of Roses, and hardy. Price, 20 cents each.

Reine Olga de Wurtemberg.—This is a splendid Rose. Should be grown where the Marechal Neil succeeds. This variety as grown in the south of France is simply indescribable. The people of the South would do well to employ this beautiful sort for covering verandas and trellises. Color rosy-pink, suffused with yellow and fawn. Price, 15 cents each.

Marechal Neil.—A beautiful deep sulphur-yellow, very full, very large and exceedingly fragrant. It is the finest yellow Rose in existence. It has a climbing habit, and where it is allowed to grow until it attains a large size, as it will in a few years, it yields thousands of beautiful golden-yellow flowers. Especially desirable in the South. We sell annually fifty thousand of this Rose alone. We have a grand stock of this variety. Price, first size, 10 cents each; fine plants, 25 cents each; extra strong plants, 50 cents each. It will pay you to buy a strong plant.

NOTE.—The Marechal Neil Rose has weak roots until it gets well established. This is the cause of so much failure with this most desirable Rose. We have grafted plants that will be sure to live. Price, one-year-old plants, \$1.00; two-year-old plants, \$1.50; three-year-old plants, \$2.00. These are extra fine plants of this lovely Rose. By far the best you have ever seen offered, and will be sure to please and delight you. We have an excellent stock of over five thousand strong grafted plants of Marechal Neil.

SPECIAL OFFER.—The five Climbing Roses, costing 85 cents, sent for only 60 cents. These same Roses would cost you \$1.00 in any other Catalogue.

EVER-BLOOMING ROSES.

Your Selection—PRICE, EIGHT CENTS EACH—All Standard Varieties.

We will send strong plants from this list, your selection, for only eight cents each. Or you may select fifteen choice ever-blooming Roses from this list for only ONE DOLLAR. No discount allowed on this offer. All will bloom this Summer.

Remember that our large two-year-old Roses will cost you twenty-five cents each from this list. These are superb plants, the best you have ever seen. Look over this list and see if many of your old favorites are not here. No doubt there are.

Queen of Bourbons.—Clear carmine, changing to clear rose.
Regulus.—Brilliant carmine, with purple and rose shading.
Robusta.—Clear Carnation-red, veined with rosy-crimson.
Roi de Cramoisi.—Bright, purplish-crimson, full, very double.
Rosa Nabonnand.—Imbricated, delicate rose, vivid center.
Rubens.—White, shaded with rose, yellowish center
Safrano.—A bright apricot-yellow, changing to orange and fawn.
Sanguinea.—Rich, dark, velvety-crimson. Single.
Sombreuil.—Beautiful white, tinged with delicate rose.
Souvenir d'Elise Vardon.—Creamy-white, shaded with pink.
Souvenir de David.—An excellent dark crimson variety.
Souvenir de George Sand.—Amber, veined with crimson.
Souvenir d'un Ami.—Fine, delicate rose, shaded with salmon.
Sulphureaux.—Sulphur-yellow, fine in bud and fragrant.
Therese Genevay.—Peach-blossom, shaded crimson.
Triomphe de Luxembourg.—Rosy-carmine on a buff ground.
Viridiflora.—The flowers of this variety are pure green.
Viscomtesse de Cazes.—Coppery-yellow, tinged rosy-crimson.
White Daily.—Pure white, beautiful long, pointed buds.
Yellow Tea.—Pale lemon-yellow, beautiful, large, pointed buds.

World's Fair Prize Chrysanthemums.

— TWENTY PRIZE WINNERS FOR \$1.00. —

The following New Chrysanthemums are all Prize Winners. Those wishing to compete for Prizes at Exhibitions should not fail to get this Prize Set.

They embrace a wide range of color, and the size of many of them are enormous, often measuring twelve inches in diameter. They are the very best Chrysanthemums ever offered. This collection cannot be divided, but must be ordered complete. If you do not wish all of them yourself get a neighbor to send with you and divide them.

Mrs. W. K. Harris.—Deepest, rich, golden-yellow, thoroughly incurved, in the way of Grandiflorum, but far larger and finer. Probably the finest yellow in cultivation. Winner of the Blanc prize, Philadelphia.

Roslyn.—A superb, clear Mermet rose pink, petals thick and heavy, cup-shaped, solid to the center, immense in size, having been exhibited eleven inches across. Habit the best, stems stiff and erect, covered with most luxuriant foliage. The best pink in commerce. Awarded silver medal by Pennsylvania Horticultural Society, certificate of merit at Madison Square Garden Exhibition, and was one of the varieties winning the Spaulding prize at Philadelphia for best six new seedlings.

Col. William B. Smith.—An immense double high-built flower, petals very broad and large, forming a solid mass of the richest bright golden-bronze. Awarded at Madison Square Garden Exhibition certificate of merit, also the Bird cup, for best seedling not yet in commerce, and certificates of merit by the Pennsylvania Horticultural Society and Royal Horticultural Society, England.

Ruth Cleveland.—A very chaste and beautiful acquisition of large size, petals broad and cup-shaped, outer rows reflex, inner ones incurve, forming a high-built center of most delicate silvery-pink. This variety, being registered, is the only one recognized by the American Chrysanthemum Society under this name. One of the collection winning the Astor cup.

Christopher Columbus.—No doubt the finest red Chrysanthemum extant, being a rich, dark crimson, and in form built on the grandest scale. One of the varieties winning the Astor Cup at the Madison Square Garden.

Emma Hitzeroth.—A magnificent extra large flower, petals broad and peculiarly arranged, completely filling the center. A bright lemon-yellow, exquisite and a novel form, superior for commercial or exhibition purposes. Awarded at Madison Square Garden Exhibition the Winslow cup for best yellow; also certificate of merit.

Dr. Covert.—A bright golden-yellow, perfectly double, nicely incurving, of great substance, lasting well when cut, stem quite stiff, a good grower, producing more than the average number of large, perfect flowers to the plant. Winner of several first prizes.

Francis M. Ward.—An immense flower of the purest snow-white, measuring ten inches across. At first has a very pale lemon tint, which is lost as the flower matures. When fully expanded it forms immense balls of pure snow-white. A grand flower for exhibition.

Mrs. Dr. Phil. Macon.—A showy Japanese variety. Inner side of petals a rich wine red, reverse silvery-pink. On first opening the petals have a peculiar manner of twisting or curling, showing the reverse color. When fully expanded they display the red shade.

Mrs. Fanny Marchman.—An immense cupped flower. Outside petals salmon-red, center a deep Indian red. Enormous, free and distinct. Invaluable as a show bloom. A most excellent variety.

Edward Hatch.—One of the grandest varieties of the year; flowers of immense size, almost spherical; outer petals recurving slightly, quite double, and carried on a good stem. The color is a soft lemon, suffused with pink. This is the variety which took the silver cup at Madison Square, offered for the best pink seedling; also first-class certificate at same time and place; also certificate at Indianapolis.

Fair Maid of Perth.—A magnificent heavy bloom of largest size, borne on stiff, erect stems, similar in form to Mary Wheeler, but much more double, as upper petals incurve to center, while under ones reflex closely to stem, forming a round ball of purest white, occasionally tipped rose. One of the varieties winning the Astor Cup at Madison Square Garden.

V. H. Hallock.—A rosy-pearl, of a marked waxy texture. The rosy color deepens toward the center. The flower is six inches in diameter, petals convex, rounded downwards half their length from the center, changing to a beautiful curved form. Few outer petals, drooping towards the stem in a most graceful manner. Center a slightly twisted incurve. One of the most wonderful varieties.

Tusaka Makaki.—An immense spreading flower, exhibited ten inches in diameter, petals three-quarters to an inch across. Blush, striped pink, each petal shading to straw color towards the center.

Mrs. S. J. Coleman.—One of the loveliest golden-yellow Chrysanthemums ever raised. Immense double flowers, incurved, showing no center. Deep golden-yellow.

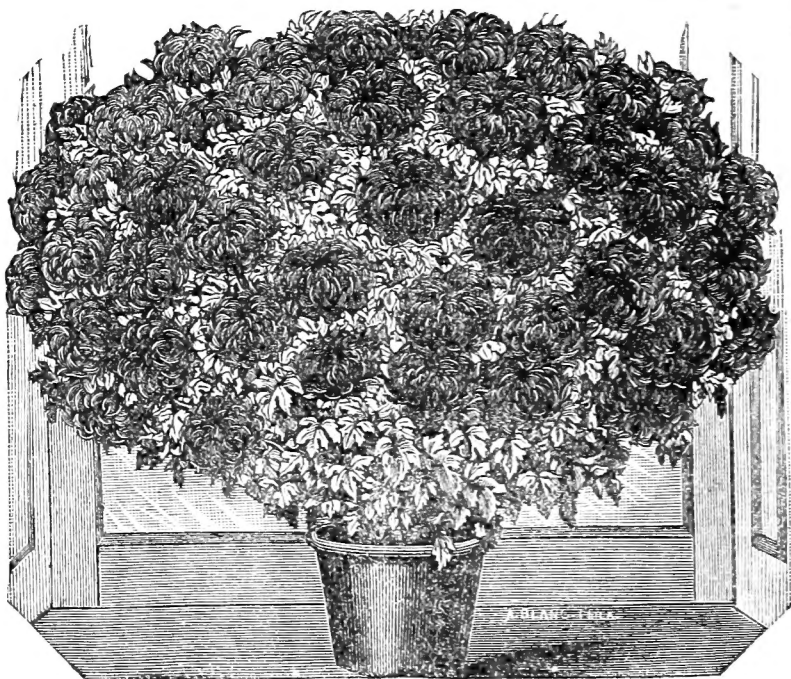

Lillian E. Bird. A beauty in every respect. Of the very largest size, long, tubular petals of perfect form, producing flowers which are twelve inches in diameter. The color is an exquisite shade of "shrimp pink," the flower when fully open being an immense half-globe. A magnificent variety. A first-class certificate at Boston and New York.

Miss M. E. McCowet.—In this we have the loveliest of Chrysanthemums. The flowers are very numerous, always perfect in form and full to the center. Color the softest white, with a deep flush of pink through the outer half of the flower curving over the center, and sometimes tipping the inner petals.

Peculiarity.—An entirely novel flower. Very double, one compact mass of bright rose tubes, having open, mouth-like extremities, of a bright, rosy-crimson, which are divided into from four to seven lobes, flowers incurve to center, the florets, when opening, tipped with bright lemon or buff. Awarded the medal of excellence at American Institute.

Sunnyside.—Of a delicate flesh tint when opening, becoming white when fully expanded, quilled floret petals, immense size, and of great substance. In general appearance somewhat suggestive of a Pond Lily. Conspicuous, distinct and valuable.

Mrs. C. E. Coleman.—Japanese. Large, full, and a strong grower, with deep red florets, reverse gold, tipped with flame color. An exceedingly beautiful variety. Flowers of such depth and varied lines are rare, and give a rich tone to all collections.

Monthly, or Ever - Blooming Carnation Pinks.

THE LATEST SPLENDID NOVELTIES.

Both the "Bouquet" and "Excelsior" collections of Carnations, sixteen most distinct sorts, for only \$1.25. You cannot duplicate these for this sum elsewhere.

"BOUQUET" Collection ^{of} NEW Carnations.

The entire set of eight "Bouquet" Carnations for 75 cents.

"American Florist."—Its color is almost indescribable. Of a rosy, orange shade, striped and flaked with carmine, never bursts its calyx, is very free and early flowering, and can always be cut with a long stem, a most desirable feature in a colored Carnation nowadays. It is very easily grown and sure to bloom.

"Silver Spray."—We believe this to be the finest new or old White Carnation in cultivation. The flowers are of the purest white, with petals of great substance, making it one of the best. It will keep a long time when cut. Fragrant and very productive of bloom, and, in all, one of the best Pinks for Winter blooming.

"Field of Gold."—This is a pure yellow Carnation, of strong growth and very profuse flowering. There is no stripe at all in it, being a straight out-and-out deep, rich, golden-yellow, without any other color whatever, under any circumstances. The florets are large and double as in Buttercup, and, taken all in all, it is the very best yellow Carnation out.

Columbia.—The color of the flower is orange, flaked, and is broadly striped with delicate carmine. Very bright and attractive. Very fragrant. It has proved one of the freest bloomers within our knowledge, single plants often carrying forty to sixty buds and blossoms at one time. One of the very best varieties.

Tidal Wave.—Flowers very large and perfect in form. Color a bright, rosy pink, with salmon shading when the flowers are fully expanded. A very healthy grower and remarkably free bloomer. Plant dwarf, growing about fourteen inches high. This we consider one of the best pink varieties ever offered, and an excellent variety for pot culture.

Pride of Kennett.—Very dwarf, and of a nice, bushy growth, forcing very long flower stems, each individual flower possessing a stem varying from three to eight inches in length. It has perfectly-formed flowers. Color a rich crimson-maroon. We unhesitatingly recommend this sort.

Fairy Princess.—This is the most beautiful Carnation we know of. The flowers are very large and perfect in shape. The color is a pure snow-white, delicately penciled with bright crimson. Elegantly fringed. A charming variety.

Ferdinand Mangold.—This is by far the grandest dark Carnation ever seen, and at the same time the most abundant bloomer. Brilliant dark red, shaded with the richest maroon, fringed petals, nearly every flower being on a long stem. This variety surpasses in richness of color the most perfect Jacqueminot Roses.

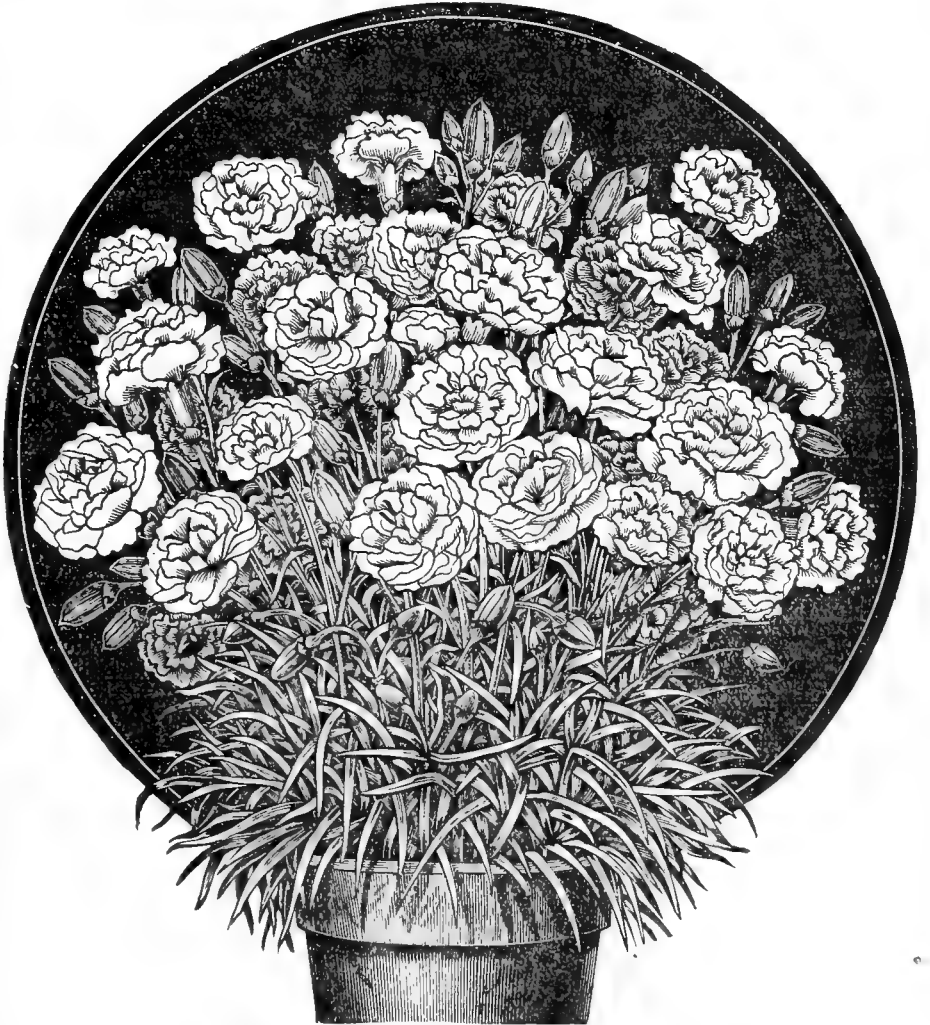

"EXCELSIOR"

Collection of New Carnations.

The entire set of eight "Excelsior" Carnations for 75 cents.

Anna Webb.—The color is of the darkest and most intense velvety-crimson maroon, very dark, and at the same time very bright.

Boule de Neige.—This beautiful white Carnation is remarkable for its extremely vigorous growth, very large flowers, perfect shape, purest white. Indeed, for size and freedom of bloom, purity of color, which is immaculate, sweetness of perfume that is delicious, vigorous growth, this variety has no equal. The best white by far out of a dozen varieties we have of that color.

"Excelsior" Collection—Continued

Grace Fardon.—This variety has been greatly admired wherever it has been seen for its desirable color, being a beautiful, pure, rich, pink, flowers large size and very freely produced. Plant of grand habit and vigorous growth. Superb variety.

J. J. Harrison.—The "Pink of Perfection." Probably the most beautiful Carnation yet introduced, and must become very popular. Flowers are a pure satiny-white, and marked and shaded with rosy-pink, good size, perfect form, never bursts. It is the strongest and sweetest-scented Carnation we know. A perfect beauty.

Joseph Perkins.—One of the most fragrant Carnations we have seen. Color a pure, soft rose, a most continuous bloomer and distinct in color from any other sort offered. Greatly admired by all who have seen it growing here.

Sunrise.—An entirely distinct color, orange ground, striped with crimson, flowers full, double-fringed and of rich color, fragrance unsurpassed by any variety in its profusion of bloom, and of a strong, vigorous, healthy growth, hitherto unknown in the yellow or orange colors. A variety certain to become a standard sort, as it possesses every good quality.

A. C. Fitzpatrick.—A most superb Carnation, one that has created a sensation everywhere. The flowers are very finely shaped and they often measure four and one-half inches in diameter. Flowers a pure white, with distinct markings of Carnation red.

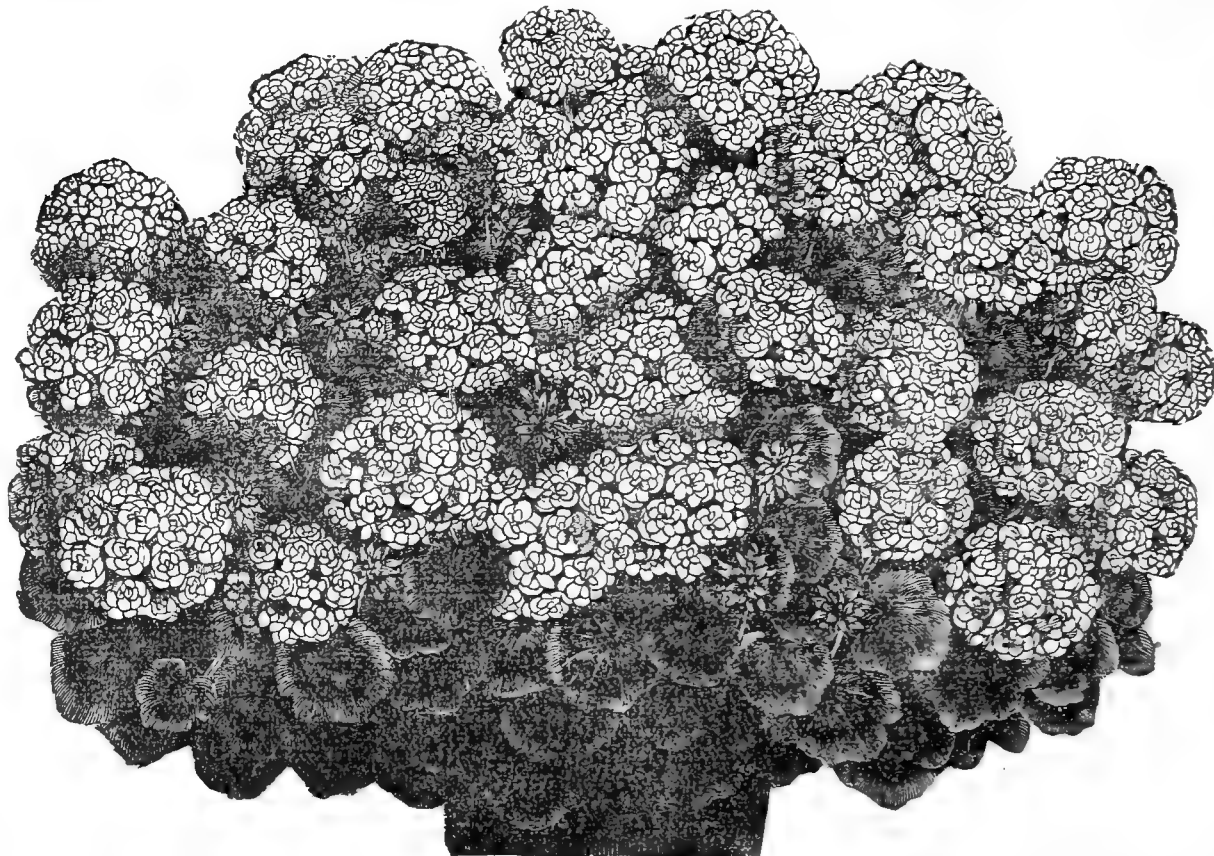

Secretary Blaine.—Another grand Carnation, with enormous-sized flowers, often measuring three and a half inches in diameter, and at the same time being one of the freest-blooming Carnations we have ever seen. Ground color of flower purest white, very handsomely penciled with the richest crimson.

THE SIXTEEN BEST DOUBLE GERANIUMS FOR \$1.00.

THE sixteen Double Geraniums embraced in this collection we have selected from our large collection of over two hundred kinds, as the very best. In fact, there are no better Geraniums than the ones here named. This collection must be ordered complete. Say "Lansdowne Park Collection of Geraniums" when you order, and we will understand what you want.

If you cannot use the whole collection, get your neighbor to club with you.

"Lansdowne Park" Collection Of Sun-Proof Bedders.

Bruant.—This magnificent Geranium is the product of Monsieur Bruanti, of Poitiers, and is the beginning of a new and distinct habited section in the Zonal Geraniums. It is very difficult to describe the difference between this type and the ordinary Zonal Geranium, but the characteristics of this variety are observed at a glance, when placed beside older varieties of the same family. The leafage is round and nicely zoned, having greater texture and substance than even the most vigorous of the older type. Color of the flower a light vermillion red, of a most pleasing shade. The flowers are absolutely perfect in shape, contour and make-up, trusses exceptionally large, and borne in immense spherical balls, often measuring eight inches in diameter. It does finely in the open ground, and is perfectly reliable as a bedding Geranium of the highest merit. It makes a compact, dense growth, and has all the qualities that go to make the perfect bedder that it is. Fine also in pots. The very finest scarlet bedder.

La Favorite.—In this new Geranium, introduced last year, we believe we have the finest double white Geranium in cultivation. It is a dwarf, compact-growing variety, the foliage is a bright, healthy green, with a band of darker green encircling each leaf. The flowers are borne in large trusses, of the purest snow-white, retain this pure whiteness even in the height of Summer, and for Winter blooming they are all that can be desired. While "White Swan" is a beautiful variety, yet La Favorite is quite in advance of it. Do not fail to add this charming variety to your collection.

Tour Eiffel.—Color bright orange-scarlet, somewhat in the way of the variety Bruant. It is a strong, vigorous grower, making a distinct place for itself in its class. Semi-double.

Bed of Gold.—It is of a rich, golden-orange shade, its large trusses opening freely, the habit being as free and robust as that of any other variety. The yellowest of all Geraniums.

Clara Kisker.—Large trusses of well-expanded flowers of a bright scarlet, toned and flamed with a rosy-salmon, and a flower of most expressive appearance, and one that will be much admired by all.

Alfred Tennyson.—Very large trusses, composed of very large flowers, semi-double. Color a clear orange, petals marked with heliotrope.

S. A. Nutt.—This is the darkest and richest Geranium grown. It is a very bright, dark, deep, rich, velvety-maroon, an excellent bedder, and a perfect pot plant. One that must find its way into every collection.

Centaur.—The new mammoth Centaur Double Geranium is the best large flowering double pink Geranium in cultivation. Any one seeing a specimen truss cannot fail to become enthusiastic over it, pronouncing it the largest and finest Geranium in cultivation. The flowers are borne on bold trusses of enormous size, almost spherical, and as many as sixty florets have been counted on a single truss. The color is the richest, deep pink, shading near the base of the petals to light pink, the base of the upper petals creamy-white. In most large flowering Geraniums, when in full flower, the center of the truss is faded, while new florets are coming into bloom around the circumference, but in the Centaur most of the florets bloom at once, and when in full bloom the truss is almost a spherical ball of rich, glowing pink. This variety is either suitable for bedding or pot culture.

Gloire de France.—Large, round florets, of waxy appearance, colors carmine and white, with carmine center, each petal delicately edged with carmine. An excellent pot variety, to which its habit is finely suited. It is one of the prettiest Geraniums we have.

Madame Hoste.—Umbels large, flowers of enormous size, color flesh, lined and shaded with bright salmon. The shading is simply exquisite.

Sergeant Bobillett.—Color a beautiful vinous rose, with distinct white center. This variety produces fine individual florets, and combined with its other good qualities makes it a valuable Geranium.

Mary Hill.—Carries the largest and most perfect truss of any of the pink doubles. A grand bedder of compact growth.

Gertrude.—Color of the flower a clear, bright salmon, with center and outer edges touched with white, and with soft shadings of carmine, velvety in texture, and of the most beautiful semi-double form. A fine bedder.

Madame Ayme Cheraliere.—Trusses are grand, and well above the foliage, flowers of the largest size. This is the largest and finest double white yet introduced. The habit is perfect, and it is very free, both in growth and bloom.

M. L. Fages.—This is a compact grower, with beautiful foliage, nicely zoned, and bears a good-sized truss of very large semi-double flowers of a clear orange color. A very beautiful and free variety.

Le XIV Juliet.—The plant is very dwarf and bushy, but vigorous. Monstrous trusses on long foot-stalks. Color a rich salmon, intermingled with white.

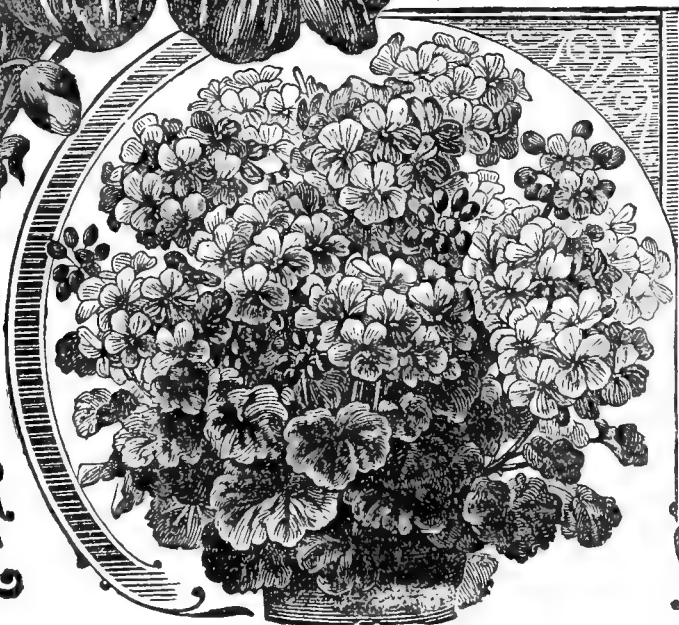

THE SIXTEEN BEST SINGLE GERANIUMS FOR \$1.00.

"WASHINGTON PARK" COLLECTION OF SUN-PROOF BEDDERS.

THIS collection of Single Geraniums is the very best varieties from a careful selection of our unrivaled collection of one hundred and fifty kinds. You should try them. They will not disappoint you. This collection must be ordered complete. Simply say "Washington Park Collection of Geraniums," and we will understand what you want.

Souvenir de Mirande.—The greatest novelty in new Geraniums that has appeared for a number of years is undoubtedly Souvenir de Mirande. It is entirely distinct from any other variety known, and is quite different from the usual marked varieties that have from time to time made their appearance. It has round florets, upper petals cream-white, with a distinct rosy-pink border, lower petals salmon-rose, streaked with pure lilac. A most novel color. It is extremely free flowering, and produces fine trusses of magnificent blooms. Mr. John Thorpe says it has made a leap of a decade in its advent.

Poete Nationale.—Color as delicate pink as Rose Baroness Rothschild, deepening to a soft peach bloom, a mingling of shades heretofore found in the "Lady Washington" class. A perfect single Geranium of an entirely new shape.

Arc-en-Ciel.—Trusses extra large, immense florets. The shades are beautifully blended. The three upper petals have soft rose centers shading into scarlet edges. Two petals are scarlet, then rose, then orange near the center. The texture is velvety.

Jules Ferry.—Splendid trusses on long, rigid foot-stalks, which are held above the foliage. The ideal of a bedder for massing. Color a soft scarlet, stands the sun finely, and presents a mass of brilliant and effective color.

Swanley Gem.—A grand new Geranium of the brightest shades of rich, dazzling scarlet, with a large, distinct white eye. A truly magnificent sort. It blooms very freely.

Columbus Gem.—Extra large florets of perfect shape, form in large trusses, well above the foliage, a bright, varied pink, large, clear, white eye. It will prove a variety of merit.

Vive L'Amerique.—A fine specimen of the new combination, and white marblings of colors, heliotrope pink, with touches of purple. Flowers of immense size, habit dwarf and very free. Fine trusses on long stems

Electric Light.—The best new single Geranium we have seen. A beautiful shade of vermilion-scarlet, large and perfect form, its most distinctive feature from existing varieties is its perfectly pure white large eye.

Benaisance.—Grayish rose, with white center, upper petals flamed with orange, plant of splendid habit, freely bearing trusses of perfect form and large size. Distinct and fine.

Trophee.—Soft, rosy, flesh-colored flowers, tinted and tinged with dark lilac. A most novel color, and a variety charmingly distinct from all others.

Leon Perault.—Our ideal bedding Geranium. Grows finely, but is not coarse, is completely covered with fine trusses of dark, rich scarlet. We pronounce this one of the best bedding varieties. In the way of the old Queen of the West, but with much richer flowers. Unquestionably a valuable bedder.

M. Poirier.—Soft, vinous rose. Prettiest Geranium in this color. Markings on upper petals that remind one of fancy Pelargoniums. Florets medium-sized, medium trusses, very fine, distinct. First-class certificate from Royal Horticultural Society.

Copernic.—Florets perfectly round, a lively, beautiful shade of rosy-carmine, changing to bright salmon at base of petals, small white eye. Very large truss of florets on long foot-stalks, a very noticeable color, quite distinct. First-class certificate of Royal Horticultural Society, London.

Pauline Lucca.—Beautiful trusses of pure ivory-white. The purest white Geranium. A grand acquisition.

Christopher Columbo.—Enormous trusses and freely produced, a bright cinnabar orange color, very distinct and fine, a bushy growth.

After-glow.—Light, clear salmon, blended darker shades, center pure white, edge of petal white. The yellowish-salmon that gives it a peculiar shade seldom seen on Geraniums.

→OUR←

"PHENOMENAL" COLLECTION

FIFTEEN • FUCHSIAS
→FOR \$1.00.←

These are the very best varieties of Fuchsias, and embrace all the colors known in this beautiful flower. Be sure and try them. In ordering, say "Phenomenal" Collection of Fuchsias, and we will understand what you want.

New Double, Perpetual-flowering, Weeping Fuchsia, Storm King.—This grand plant is of the most beautiful weeping habit. The branches, drooping as they do, lend the plant a charming grace which is rarely found. The buds, for two weeks before they expand, are balls of glowing scarlet-crimson. The flowers continue to grow larger and larger after they expand. The sepals are of the same glowing scarlet-crimson as the buds, while the large double corolla is of delicate waxy-whiteness, elegantly penciled with a deep and bright crimson. Its flowering qualities are most remarkable, for it is never out of bloom when in a healthy condition. Price, 15 cents each for good, strong plants.

Sapaly Freres.—Color of sepals a bright coral red, corolla violet and carmine-red. One of the most beautiful and distinct of the Fuchsias. Price, 10 cents each.

Crepuscle.—Superb double variety, a fine, straight grower, plants of good shape, color of tube and sepals dark red, corolla violet, striped with rose. Price, 10 cents each.

Champion of the World.—Large double flowers, well reflexed, and of a most beautiful coral red, corolla most intense bright dark purple. Price, 10 cents each.

Bland's New Striped.—The tube and sepals are a glowing crimson, corolla a rich plum-colored purple, regularly and distinctly striped red rose. Price, 10 cents each.

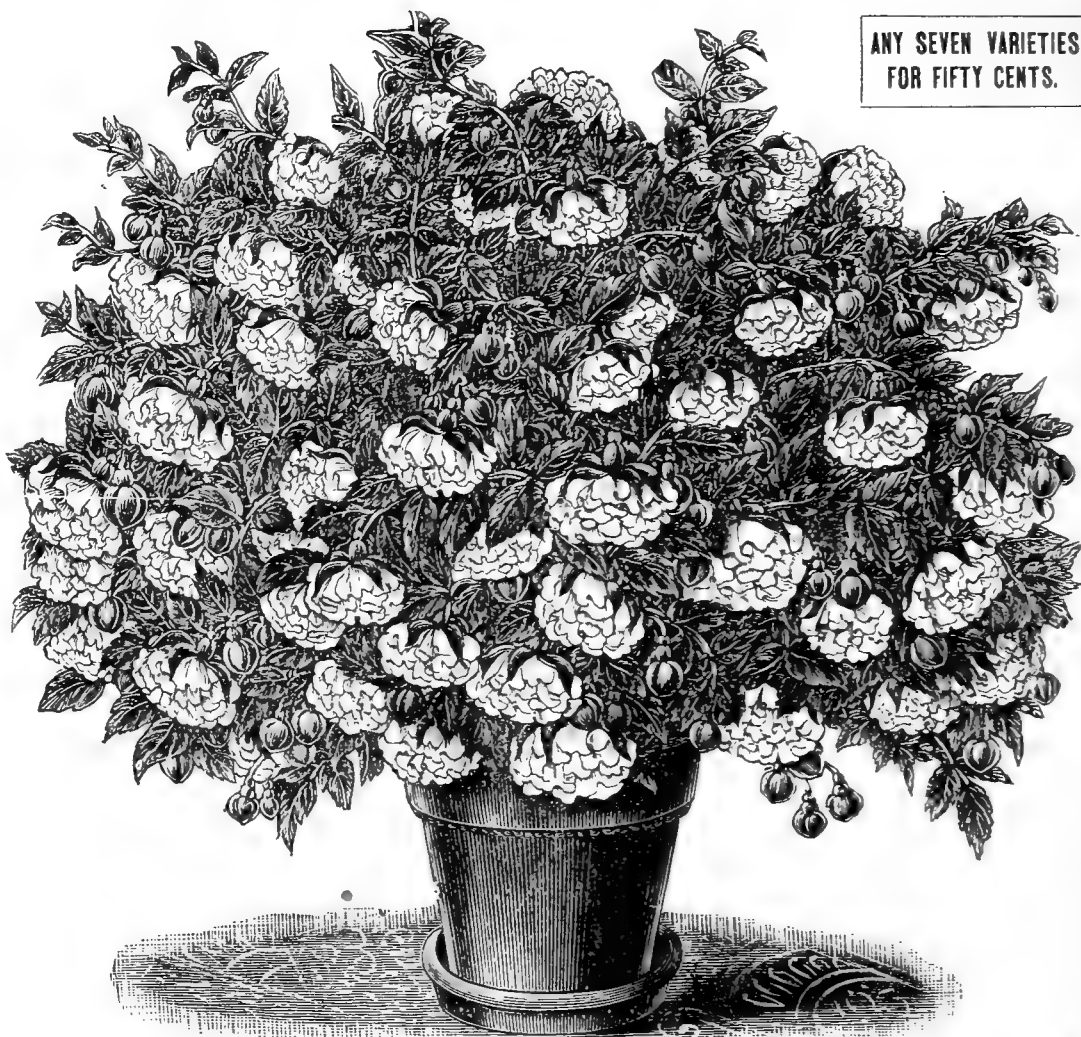

The King of Fuchsias, "Phenomenal."—The flowers are of enormous proportions, being very double, very broad, and of great substance, well reflexed, of a most beautiful coral red, corolla an intense bright sky-blue. This is without comparison as a novelty. The largest Fuchsia grown. Price, good, strong plants, 20 cents each.

Admiral Courbet.—A beautiful sort with enormous double flowers. Corolla a peculiar shade of deep violet, tube and sepals a bright red. A splendid variety. Price, 15 cents each.

Esmeralda.—One of the grandest and most distinct varieties. Tube is short, sepals brilliant red, corolla very large and brilliant, color a beautiful lilac, changing to a clear rose. Price, 15 cents each.

Rosain's Patrie.—A splendid white variety, in the style of that fine variety, "Col. Dominie." A wonderfully free bloomer and quite early. Tube and sepals rosy-carmine, corolla of the purest white. Price, 15 cents each.

Jules Monge.—New. Lovely sky-blue, double corolla, banded with scarlet. Price, 10 cents each.

Storm King.

ANY SEVEN VARIETIES
FOR FIFTY CENTS.

President F. Gunther.—A grand sort, with large, double flowers, the sepals delicate carmine. The corolla is a bright lilac, darkened with violet. A beautiful and fine variety. Price, 15 cents each.

New Double White Fuchsia, White Giant.—The largest and best white Fuchsia grown. Fine form, very double. Color a pure white. This is a better grower than "Storm King," and superior to that variety, or in fact any of the white Fuchsias. We find it to be an excellent Winter bloomer. It gives us much pleasure to offer this grand Fuchsia. Price, 20 cents each.

General Roberts.—A remarkable, beautiful variety of drooping habit. The blooms are from four to five inches in length, borne in large clusters, single corolla, of a rich plum color, tube and sepals crimson. Price, 15 cents each.

Monsieur Thibaut.—A splendid variety, with large, handsome foliage of a delightful green tint. The foliage alone would make it worthy of cultivation. The flowers are single, of unusual size, sepals dark red, corolla rose-vermilion, tinted violet. Price, 15 cents each.

Black Prince.—This is, without question, the very finest Fuchsia grown for the amateur to cultivate. It makes a shapely bush, is robust in growth, free from disease and insects, and is probably the freest in blooming. We have seen specimen plants six feet in height and four feet across loaded with thousands of its bright buds and blossoms of a beautiful waxy-carmine or pink color. Certainly a plant of easy culture. Price, 15 cents each.

OUR "COLUMBIAN" COLLECTION.

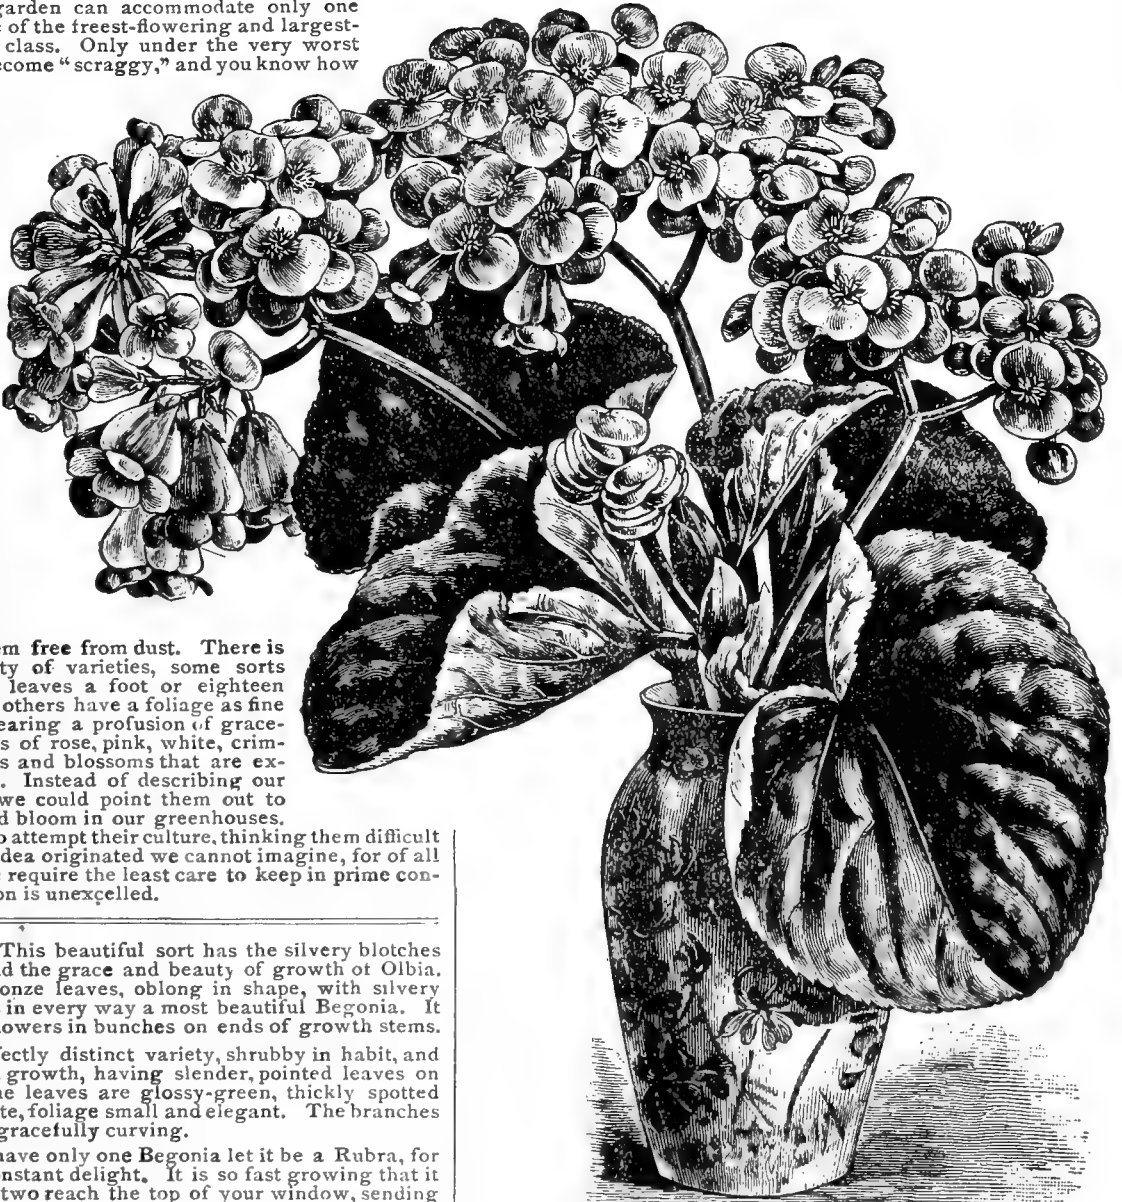

TEN FLOWERING BEGONIAS
—* FOR \$1.00. *

Price, 15 cents each, or the entire collection of TEN varieties for \$1.00. Any FIVE for 50 cents. In ordering, say "Columbian" collection of Begonias. We reserve the right, should our stock become exhausted, to substitute others equally valuable.

IF your window garden can accommodate only one plant, let it be one of the freest-flowering and largest-growing of this class. Only under the very worst conditions do they become "scraggy," and you know how prone window plants are to this condition. If you can grow a dozen sorts your delight will be increased twelve-fold. Give them a light soil, woods earth, some sharp sand and rich loam. A small amount of cow-yard manure may be used, if thoroughly decomposed, and will very much heighten the rich coloring of the leaves, but in too large quantities, or if fresh, is very harmful. Do not allow the soil to become sodden (plenty of sand will prevent this) and do not give too much water. Begonias are not troubled with insects of any kind, only keep them free from dust. There is the greatest diversity of varieties, some sorts having five-pointed leaves a foot or eighteen inches across, while others have a foliage as fine as a sweet-briar, bearing a profusion of graceful, drooping racemes of rose, pink, white, crimson and bi-color buds and blossoms that are exceedingly attractive. Instead of describing our varieties, we wish we could point them out to you as they grow and bloom in our greenhouses. Many persons fear to attempt their culture, thinking them difficult to grow. How the idea originated we cannot imagine, for of all window plants these require the least care to keep in prime condition. Our collection is unexcelled.

Argentea Guttata.—This beautiful sort has the silvery blotches of Alba Picta and the grace and beauty of growth of Olbia. It has purple-bronze leaves, oblong in shape, with silvery markings, and is in every way a most beautiful Begonia. It produces white flowers in bunches on ends of growth stems.

Alba Picta.—A perfectly distinct variety, shrubby in habit, and of very compact growth, having slender, pointed leaves on short stems. The leaves are glossy-green, thickly spotted with silvery-white, foliage small and elegant. The branches are upright and gracefully curving.

Rubra.—If you can have only one Begonia let it be a Rubra, for it will prove a constant delight. It is so fast growing that it will in a year or two reach the top of your window, sending up heavy, stiff canes an inch in diameter, and rising beside them will grow strong, slender branches, gracefully drooping under heavy, waxen leaves and pendant panicles of coral-colored flowers as large as a hand. Medium-sized plants are frequently seen with more than twenty such panicles at a time. Among the individual flowers you will find three distinct forms growing side by side. One of the most wonderful plants within our knowledge.

Sandersoni.—Coral Begonia. One of the best flowering Begonias. The flowers are of a scarlet shade of crimson, borne in profusion for months at a time.

McBethii.—Of the Weltoniensis type, with very deeply indented leaves which are fine and small. Shrubby in growth, and very free flowering, being constant the year round. A fine Summer bedding plant, if given a light soil and perfect shade. Put it among your ferns. White flowers, waxy texture, carried in panicles.

Miss Sallie Peters.—A charming new variety, of strong, healthy growth, making a charming pot plant. The foliage is almost round in shape, of a deep, rich green. The flower is a beautiful shade of pink, and we have seen panicles of bloom two feet in length. Altogether the queen of the flowering Begonias. One of the very best, if not the best, Begonia in our entire collection. Its worth is also enhanced by its blooming freely in the Winter. Be sure and try a plant of this Begonia.

M. de Lesseps.—A decided improvement on Argentea Guttata, the leaves being four times the size seen in that variety, while the silky texture is the same, and it is beautifully spotted with silver. A very strong, free-growing variety, that will succeed with any ordinary care, growing rapidly and sending out quantities of leaves.

Bertha de Chateaurocher.—Next to Dewdrop this is the freest-flowering Begonia we have. It blooms the year round, makes a handsome window plant with its beautiful foliage and bright currant-red flowers.

New Begonia, Thurstonii.—This elegant new Begonia is without a rival as to combinations of both foliage and flowers. The underside of leaves is a rich, purplish-red, the veinings very prominent, while the face or upper side is a bronzy-green, shaded with crimson and olive, with a peculiar glossy metallic luster over all. Flowers rosy-white in large clusters, well above the foliage. The plant has a fine habit. Taken altogether, we think this the best all-around Begonia we grow.

Margarita.—A variety with leaves like Metallica, to which it is related. It grows in round, bushy form. Leaves bronzy-green, with purplish cast. Very free flowering. Large trusses of delicate cream and rose-colored flowers.

LATEST NOVELTIES

SPECIAL OFFER.
The eleven distinct kinds of New Rex Begonias for \$1.50.

IN Rex Begonias.

Rex Begonias are the handsomest of all decorative plants. You will find the collection we offer here the prettiest you have ever seen. Price, 20 cents each; any three for 50 cents; any seven for \$1.00.

New Rex Begonia, M. Charrat.—The majority of the leaf is silver, with dark-pointed center and dark edge. The entire leaf is covered with soft velvety pile, the edge beautifully mottled.

New Rex Begonia, Louise Closson. The brightest of all the rosy-leaved Rex of which Chretien was the forerunner. Then came Lucy Closson, and now we have Louise Closson, which has the Rex form of leaf nicely pointed. The texture is very full and crepe-like, while the zone is a bright, rosy-purple of high metallic luster. A nice grower, and a grand addition to the family. Sells on sight.

Madame Allamagny.—One of the very finest Begonias ever introduced. The large leaves are beautifully lobed. The majority of the surface is a silver-white, with elegant palmate center of velvety-green. The edge is a dark, wavy line.

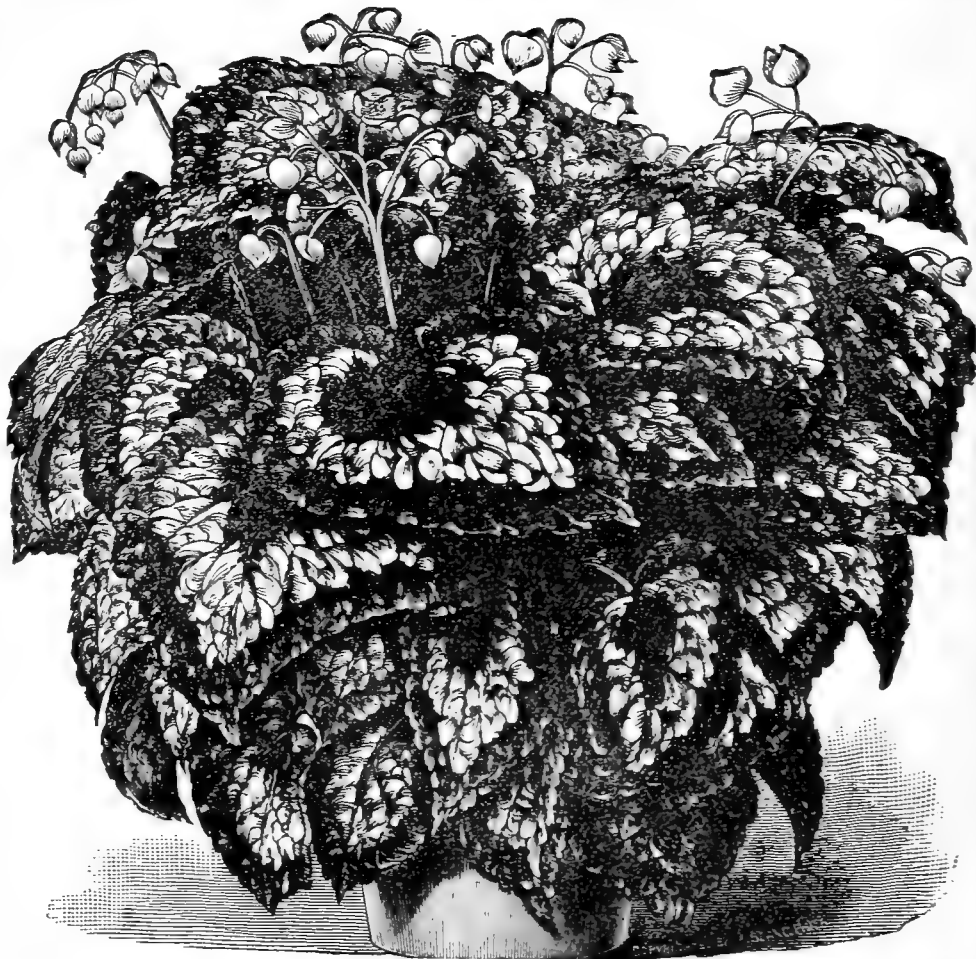

Madame Mersche, or Speculata.—This is the easiest of all the Rex to grow, and soon makes handsome specimens, with large, bronzy-green foliage, beautifully mottled and marked. One you can grow, and a beauty.

Marquis de Peralta.—One of the freest-growing of Rex Begonias, throwing out great clusters of leaves, which are exquisitely beautiful. Edged by a very narrow band of silver of uniform width. This borders a bright green zone mottled in silver, which encloses the zone proper, which is a broad silver band about a dark-rayed center.

Lesoudsii.—This is the finest and largest-leaved of any of the Rex family. It is impossible to describe in words the beautiful markings of this magnificent Begonia. It is a cross between Begonia Diadema and a Rex variety, but retains in a marked degree the Rex character. We consider this the finest of all the Rex family, both in size of leaf and rich coloring.

Queen Victoria.—Bright silver-green, of crepe-like texture, and reddish veins and fluted edge.

Begonia Rex, or King of the Begonias.—One of the most effective of its class, though the oldest variety. Of a beautiful metallic luster, center and edge a soft velvety-green, with a broad silver zone terminating at the point.

New Rex Begonia, Bertha McGregor.—Leaf nine by six inches long-pointed, and with deep notches. A free, strong grower, producing foliage in abundance. The center of the leaf is small, dark, and palm-shaped, the body of leaf being solid silver, outlined with bronze. Extremely elegant, Price, 35 cents each.

New Rex Begonia, Siebold.—Dark, reddish-green center, very broad, light metallic band, this bordered again with a bright, medium shade of green, all surrounded by a dark, ruffled edge, beautifully mottled.

Madame Treyve.—One of the upright-growing varieties, but of the distinct form and texture of the true Rex. Narrow edge of brownish-plum color about a very broad, soft-green zone.

SIX CHOICE EVER-BLOOMING ROSES FOR CEMETERY PLANTING.

We have had considerable inquiry as to the best varieties of constant-blooming white Roses for Cemetery planting; and we here name the very best kinds for that purpose.

Cornelia Cook.—Very large, pure white buds and flowers. Excellent. Price, 10 cents each.

The Bride.—An elegant white Rose, and very free-flowering. Price, 15 cents each.

Marie Guillot.—This Rose is as perfect in bud and flower as a Camellia. Pure white in color. Price, 10 cents each.

Marie Van Houtte.—A most elegant Rose. White, shaded lemon-yellow. A most excellent sort. Price, 10 cents each.

Snowflake.—New. Always in bloom. An elegant sort. Price, 15 cents each.

The Queen.—New. This Rose is a beauty. Pure, waxy-white. A most remarkable Rose. Price, 15 cents each.

We will furnish these six choice white Roses for 50 cents. in ordering, say Cemetery Collection of Roses.

"SUPERB" COLLECTION

— OF —

Ever-Blooming Dwarf Cannas

Price of Plants to bloom this Spring and Summer, 15 cts. each. The set of eight for \$1.00. Any four for 50 cents. : : :

CULTURE—The soil can hardly be too rich and porous. Equal parts manure, loam and sand, with a little peat, form best mixture. Plants must be kept in a growing temperature of sixty degrees. Liberal supplies of manure water are of great benefit. Bottom heat is very desirable for these plants when growing in the greenhouse.

THERE has been nothing offered in recent years that possesses such real and intrinsic value and merit, and that appeals to so many buyers as the new Cannas which we have the pleasure of offering to our customers this season. French Seedling Cannas have attracted considerable attention for some years. The varieties which we now have the pleasure of offering are far superior to any that have been offered in this line, and any ideas based on the purchases of the so-called "French Cannas" would be misleading. They are really the finest novelties that have been offered in years. They are not only among the very finest plants for bedding, and will be in great demand by those who desire something choice and rare to vary the monotony of out-door gardening, but they also make elegant plants for the conservatory, both Summer and Winter—in fact, one of the finest plants for conservatory decoration there is to-day. Every shoot blooms, and as often as a truss of bloom is past its prime, another shoot pushes out beyond it, and each stem blooms three, four and five times in succession. As the plants throw up numbers of shoots, they are a mass of most gorgeous bloom constantly. We have never offered a plant that has given such unqualified satisfaction and for which there has been such a demand as there has been for these new Cannas during the short time we have had them, and those who do not secure a stock of these valuable plants immediately will have cause to regret it. Heretofore we preferred to wait before investing in French Cannas until something was produced of intrinsic merit, pronounced enough in character to make it really valuable. Having satisfied ourselves of the value of these novelties beyond all question, we have invested in them very heavily, and offer the following eight kinds as the very best selected from over two hundred varieties:

Madame Crozy.—The flowers of Madame Crozy are a flaming scarlet, bordered with gold, a marvelous combination of colors, having all the delicacy and loveliness of the rarest orchid. It produces all the wealth, richness and tropical luxuriance of foliage of the common kinds, added to which is the gorgeousness of their flaming panicles of bloom, which are borne in immense heads at the terminus of every shoot. The individual flowers are five inches in diameter, and when the large size of the flowers and the large heads of bloom are taken in connection with the freedom with which it blooms, it makes one of the most attractive plants for bedding it can be possible to conceive of. It also makes elegant plants for the conservatory both Summer and Winter—in fact, it is one of the finest plants for conservatory decoration there is. Every shoot blooms, and as often as a head of bloom passes its prime another shoot pushes beyond it, and each shoot blooms three, four or five times in succession. As the plants are constantly throwing up shoots from the ground they continue a mass of most gorgeous bloom.

Duchess de Mortemarte.—This is undoubtedly one of Mr. Crozy's most beautiful and distinct introductions. The flowers of this splendid sort are of the most perfect form. The petals are even broader than those of Madame Crozy and more rounded at the ends, which latter characteristic represents the best type sought for in the latest hybridizations, are well opened and of the most brilliant golden-yellow, dotted with brightest scarlet, and are the largest of all Cannas, and produced in constant succession.

Sarah Hill.—As a pot plant for blooming both Summer and Winter, this Canna is a novelty of immense importance. It has already become recognized as the most valuable and important flowering plant among those who know it. It is utterly impossible to have a plant which is more easily grown or more effective in bloom. The enormous panicles of flowers which are borne continually even on plants only a foot or two in height and in small pots is, indeed, marvelous, and the intense color of the blossoms makes such plants objects of the most effective beauty. We honestly believe it to be the finest of all Winter-blooming plants, and as a garden flower nothing can surpass it. Color intense, brilliant, velvety-crimson.

New Dwarf Ever-blooming Cannas.

Alphonse Bouvier.—This is the grandest Canna, all things considered, introduced up to this time. It is a taller grower than Madame Crozy, throwing up strong stems even more freely than that variety. In good soil the plant will grow eight feet. The tips of the shoots are surmounted by immense clusters of bright crimson flowers of the very largest size, and nothing can exceed their brilliancy. It has a peculiar habit of drooping the flower cluster a trifle, as the second flowering shoot begins to push above the first, and the shoots flower two, three or more times, one after the other—a large plant in bloom sometimes having on as many as thirty or forty of these large, brilliant clusters of flowers. Grand is the only word that describes this new Canna.

Paul Marquant.—The individual flowers are large, and the flower spike very large, each flower standing out separately by itself. The flower is as fine as the finest orchid. The color is very hard to describe, to give any adequate idea of how beautiful a shade it is. It might be described as a bright salmon, with a carmine tint. The flower has a silvery luster, which glistens and lightens it up with a silvery sheen, making the salmon of the flower very brilliant. Some have described it as apricot—a shade that is so fashionable at the present time.

J. D. Cabos.—Strong grower, leaves lanceolate, green, strongly shaded with purple, flower stalks numerous, flowers large and round, color a rich apricot, with deeper shadings. Very striking.

Baron Kerowitz.—Nothing can excel the picturesqueness and effectiveness of this grand plant. When to its magnificent and stately form is added the beauty of its large, drooping spikes of magenta-colored flowers, each flower as large as a Gladiolus, it makes a plant without a rival. The massive banana-like leaves alone would make this a valuable acquisition, but when we see its magnificent magenta-flowers, over three inches long and two inches wide, suspended from its deep red, whip-like flower stalks, it is difficult to find words to express our admiration.

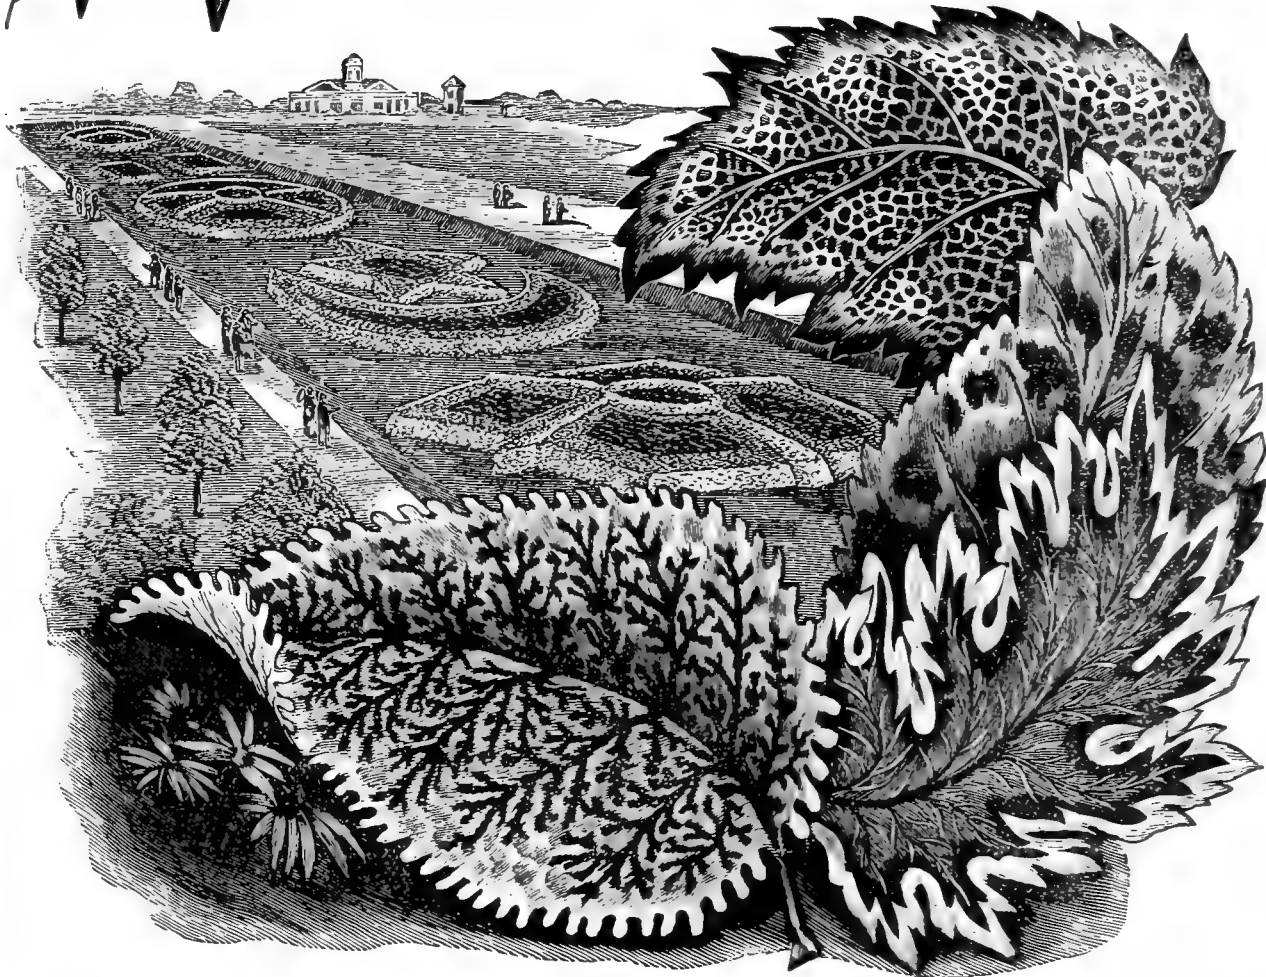

F. Thomayer.—A beautiful dwarf variety with strong flower stalks, of a superb orange color. This is a very distinct variety in the color of its flowers.

GOOD & REESE'S

World Renowned Coleus.

Price, 5 cents each; ten for 50 cents; twenty distinct varieties for \$1.00; by express, thirty for \$1.00. We will send the below twenty choice named Coleus by mail, prepaid, for \$1.00. These are all good bedders, standing the hot sun without losing their colors. Price per hundred, when sent by express, \$3.00.

THE COLEUS will give more pleasure at less cost than any other plant. Their varied tints of crimson, gold, bronze and green, richly blotched, veined or margined, produce a brilliancy of coloring unequalled. The Coleus is the gardener's paint-box, bearing all the colors on its leaves, ready to be disposed in whatever ornate and parti-colored designs we may choose to display upon our lawns and parterres. In this field there is the greatest opportunity for an interesting exercise of the ornamental taste possessed by all flower lovers. The style is very appropriately called "carpet gardening." Whoever has been in our large city parks will never forget the little ornamental bed—curving and quaint designs and mingling arabesques of orange, blue, canary yellow, scarlet, silver-white, claret, pale green, purplish-black and olive—that look like vari-colored rugs spread at short intervals on the smooth lawn. Sometimes one large circular bed is filled with maroon-leaved Coleus with very striking effect. Plants should be set about a foot apart, so that when the size of the bed is ascertained it is easy to figure how many plants are needed of each kind in a row. We have a collection of two hundred kinds of the most distinct sorts out. Leave the selection of varieties to us, as it is hard to describe the various tints.

Fire Crest.—This is, without exception, the most brilliantly-colored Coleus as yet introduced; in fact, we know of no plant surpassing it in brilliancy of coloring. The major portion of the foliage is a bright carmine-crimson shade, the edge is slightly marked with golden-yellow, which heightens the coloring, the center of the leaves is blotched with deep bronze, the leaves are deeply toothed, and have that graceful wavy appearance so desirable. Price, if ordered alone, 10 cents each.

Yeddo.—This we place next to Fire Crest as being the best Coleus. The color is a deep golden-yellow, spotted with bright green. A splendid bedder, and always bright. Price, if ordered alone, 10 cents each; or Fire Crest and Yeddo, the two for 15 cents.

Autumn Glow.—Has all the beautiful tints of Autumn leaves.

Bronze Queen.—A deep bronze, with a fine yellow edge.

Black Bird.—Very dark, with reddish cast.

Butterfly.—A crimson bronze, old gold and green.

Bizarre.—Crimson center, edged with green and gold.

Beauty.—A crimson bronze, with green edge.

Chicago Bedder.—Green and gold. An excellent bedder.

Dora Clapp.—Crimson center, with bronze and green edge.

Empress of India.—Crimson, with a golden edge.

Fire Brand.—A fine bedder. Dark crimson, shaded garnet.

Golden Bedder.—Deep golden-yellow. A fine bedder.

Golden Verschafeltii.—This ranks first in the yellow varieties.

Hero.—A deep, jet black.

Hiawatha.—Bronze and yellow, spotted.

Progress.—A beautifully-mottled red, green and bronze.

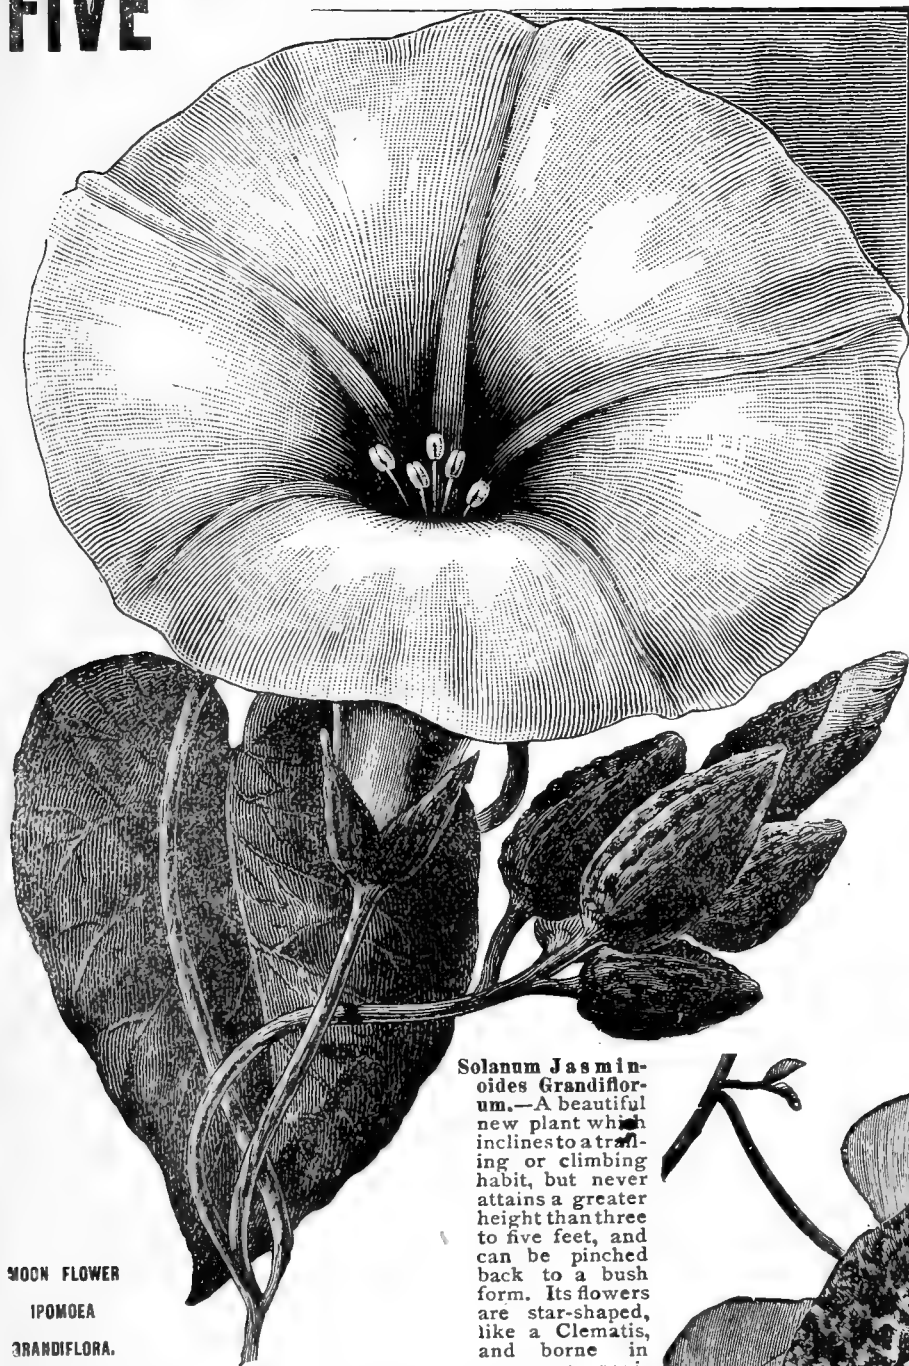

Retta Kirkpatrick.—Bright green, large, deep, yellow center.

Setting Sun.—Crimson, with brightest golden edge.

Verschafeltii.—A rich, velvety-crimson. The best bedder.

Remember, the above twenty choice Coleus for only \$1.00. You have never seen anything so grand in the Coleus line. Try them, and see what a beautiful bed you can have, and with but little care.

FIVE BEAUTIFUL CLIMBING PLANTS FOR 40 CENTS.

MOON FLOWER
IPOMOEA
GRANDIFLORA.

Solanum Jasminoides Grandiflorum.—A beautiful new plant which inclines to a trailing or climbing habit, but never attains a greater height than three to five feet, and can be pinched back to a bush form. Its flowers are star-shaped, like a Clematis, and borne in enormous panicles or clusters, often a foot across.

In color they are pur-white with a violet tinge on back of petals and on the buds. In pots it is a fine bloomer, both Summer and Winter; but its grandeur for outdoor culture when trained against the wall or trellis, and showing hundreds of these magnificent panicles of bloom, cannot be described. It is a free and constant bloomer, commencing when only a foot high, and like the *Manettia* its flowers keep perfect a long time before fading. No more beautiful object can be seen than these two vines growing side by side and mingling their profusion of bloom. Price, strong plants, 10 cents each, six for 50 cents.

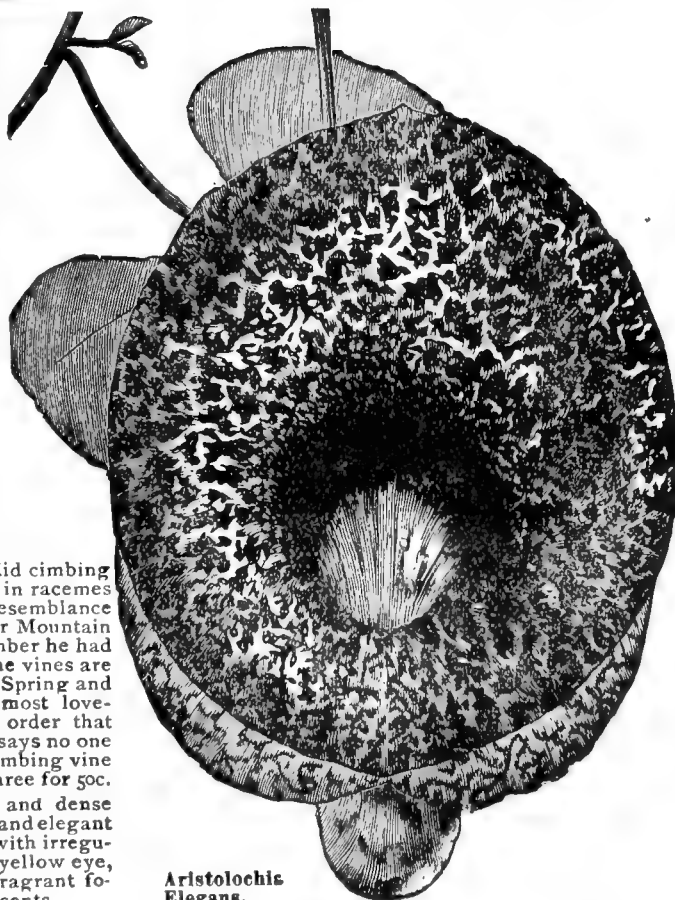

Antigonum Leptophus, or "The Queen's Wreath."—A splendid climbing plant from Central Mexico, producing rose-colored flowers in racemes two feet long. The profusion of bloom is such as to give the resemblance of *Roses* at a distance, hence its name, *ROSA DE MONTANA*, or Mountain Rose. Described by the discoverer as the most beautiful climber he had ever beheld. This is moderately hardy, with protection. The vines are killed to the ground by frost, but it quickly shoots up in the Spring and develops its flowers from June until frost. This is one of the most lovely vines. One of our customers in Texas says in her Fall order that every lady that saw her vine in bloom wanted one. She says no one can describe its beauty. This is, without doubt, the finest climbing vine grown. Be sure and try it. Price, strong plants, 20c each; three for 50c.

Aristolochia Elegans.—One of the best new climbers, of rapid and dense growth. Bears profusely, even on small plants, its handsome and elegant flowers, of a rich, dark purple color, ornamented throughout with irregular-branched markings of a creamy-white, having a golden-yellow eye, surrounded by rich, velvety purple. Astonishes all with its fragrant foliage and handsome flowers. Price, 10 cents each; six for 50 cents.

Each and every vine here offered is quite distinct, and will give grand satisfaction to all who purchase them. This is a wonderfully cheap offer, the five beautiful climbers for 40 cents.

The Moon Flower, *Ipomoea Grandiflora*.—If planted out in rich ground about May 15th, in a situation where it has full exposure to the sun, it will attain a height (if given wire or string to twine on) of forty feet by October 15th, blooming abundantly the entire season. It is called "Moon Flower" from its rare peculiarity of blooming best at night, although it also expands its flowers in dull days. The flowers are pure white, from five to six inches in diameter, emitting a rich jessamine-like odor at night. The "Moon Flower" is a tender plant, but it can easily be kept in the house over Winter. It roots easily from slips, so that no attempt should be made to lift large plants. Price of the true "Moon Flower," 10 cts. each; six for 50 cents.

***Manettia Bicolor*.**—The most wonderful new vine or plant that has yet been produced. It blooms in Winter as well as Summer. When we first saw this offered we thought it a humbug, but we were agreeably surprised. It is both a rapid and beautiful climber. The flowers are from an inch to an inch and a half in length, of a most intense bright scarlet, shading into flame, tipped with the deepest golden-yellow, and covered with a thick scarlet moss. Read the above over again and see if you can think of anything half so bright and pretty. The brilliancy of the flowers is greatly enhanced by the waxy-green leaves, and the blossoms remain on the plants for weeks before falling. Don't confound this variety with the old *Manettia*, as it is far superior to the old variety. Send to us and get the genuine. We can usually send them in bloom. Price, fine plants, 10 cents each; six for 50 cents.

Aristolochia Elegans.

15 ELEGANT BLOOMING PLANTS

FOR ONE DOLLAR.

Including three Roses, two Geraniums, two Chrysanthemums, one Carnation, one Begonia, two Fuchsias, one Heliotrope, one dwarf Orange, one Hibiscus, and one pretty Palm. This is a wonderful bargain, as they are, one and all, grand, and will be a continual source of enjoyment and surprise to you throughout the entire year. No two have flowers alike. In ordering, say "Surprise" Collection.

Ever-Blooming Pink Rose, Letty Coles.

In this we have one of the best Roses grown. It is extra large, globular in form, very double, exceedingly sweet Tea fragrance. Color a soft, rosy-pink, shaded with intense crimson. Very chaste and beautiful. Always in bloom.

New Pure White Hybrid Tea Rose, Kaiserin Augusta Victoria.

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have white Roses that have elegant buds, but when full blown are not all that is desired. Then again, we have white Roses that are elegant when full blown, but have poor buds. This Rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds and flowers in greatest profusion. The buds are very beautifully formed, with large petals of best substance; shows no center when fully open. Color pure snowy-white; and when you add a rich perfume, coupled with a vigorous growth, what more could you ask? This Rose is an easy winner over all competitors in its color, and we predict that more of it will be planted than all other white Roses combined.

Golden-Yellow Rose, Mademoiselle Cecile Berthod.

Color a beautiful chrome-yellow, deepening to the center to pure golden-yellow, flowers very large, very double and full, and deliciously fragrant. A grand bedder. It produces magnificent buds, equal to Marechal Neil in color and size. Elegant, both for house and garden culture.

Geranium, Souvenir de Mirande.

The greatest novelty in new Geraniums that has appeared for a number of years is undoubtedly Souvenir de Mirande. It is entirely distinct from any other variety known, and is quite different from the usual marked varieties that have from time to time made their appearance. It has round flor-ets, upper petals cream-white, with a distinct rosy-pink border, lower petals salmon-rose, streaked with pure lilac. A most novel color. It is extremely free-flowering, and produces fine trusses of its magnificent blooms. Mr. John Thorpe says it has made a leap of a decade in its advent.

New Geranium, Bruant.

Semi-double. This magnificent Geranium is the product of Monsieur Bruant, of Poitiers, and is the beginning of a new and distinct habited section in the Zonal Geraniums. It is very difficult to describe the difference between this type and the ordinary Zonal Geranium, but the characteristics of this variety are observed at a glance, when placed beside older varieties of the same family. The leafage is round and nicely zoned, having greater texture and substance than even the most vigorous of the old type. Color of the flower is a light vermilion red, of a most pleasing shade. The flowers are absolutely perfect in shape, contour and make-up, trusses exceptionally large, and borne in immense spherical balls, often measuring eight inches in diameter. It does finely in the open ground, and is perfectly reliable as a bedding Geranium of the highest merit. It makes a compact, dense growth, and has all the qualities that go to make the perfect bedder that it is. Fine also in pots. The very finest scarlet bedder extant.

Otaheite Orange, New Dwarf Orange.

This is one of the prettiest plants we grow. Every one is delighted with it. It blooms and fruits when quite small. We have seen plants in bloom and fruit when but six inches in height. Don't fail to try it.

The Beautiful Palm, Washingtoni Filiferi.

This is the easiest and quickest-growing of all the Palms. Nothing can be more beautiful for house or yard decoration. Invaluable for vases and baskets.

This "Surprise" Collection of 15 elegant plants, all different, for the small sum of \$1.00. Will cost you twice that price in any catalogue.

New Chrysanthemum, Golden Wedding.

This is the grand golden-yellow variety. Nothing can exceed the richness of its color. It is unrivaled in this respect. It is a remarkably vigorous grower, and has such strength of stem that it carries its great globular flowers erect, giving it a bold, majestic appearance. The form of Golden Wedding is unique, the outer petals droop downward in picturesque regularity, the center of the flower is built high, with broad petals irregularly overlaid, so that although the flowers are so large they are not heavy, solid-looking like many others. For this reason alone it will, no doubt, supersede all other yellow varieties with the public.

New Chrysanthemum, Mrs. J. Lewis Childs.

This valuable new Chrysanthemum was exhibited at the New York and Philadelphia shows, attracting much attention as one of the very best incurved varieties, and was awarded a medal of excellence at the American Institute Fair. It is a free, strong grower, easily attaining four feet in the open ground. The enormous flowers are as round as a ball, and produced in abundance on long stems. The pure snowy-white color develops a tinge of pink so exquisitely faint that one almost looks for the color in the light, and not the flower. Used for decoration in the evening. This feature has been much admired. Altogether this new variety is one of the most prominent offered this year.

New Carnation, White Wings.

A pure snow-white variety, waxy, without fleck or tint, of the largest size, serrated edge, delightfully fragrant. Much the best white Carnation grown. Excellent for pot or garden culture.

New Begonia, Thurstonii.

This elegant new Begonia is without a rival as to combinations of both foliage and flowers. The underside of leaves is a rich, purplish-red, the veins very prominent, while the face, or upper side, is a bronzy-green, shaded with crimson and olive, with a peculiar glossy, metallic luster over all. Flowers rosy-white, in large clusters, well above the foliage. The plant has a fine habit. Taken altogether, we think this the best all-round Begonia we grow.

New Fuchsia, Mrs. E. G. Hill.

This is the very best double white Fuchsia ever offered. Its flowers are enormous in size, corolla pure white, tube and sepals richest crimson, making a combination that is very attractive. We have had plants with thousands of these elegant blossoms on both Winter and Summer. It is of the easiest culture.

New Fuchsia, General Roberts.

A remarkably beautiful variety. The blooms are four to five inches in length, and are borne in large clusters. When the plant gets well established it will produce panicles of these bloom over a foot in length. The corolla is a rich plum color, tube and sepals bright crimson. It is a wonderful plant to bloom.

New Heliotrope, Sapphire.

For a neat, dwarf habit, profusion of bloom and richness of odor this Heliotrope has no equal, and its vivid color of royal purple, with a distinct white center, gives us something entirely new in color, either for Summer decoration or Winter flowering.

New Hibiscus, Sinensis Giganteus.

This is a splendid plant, with large, gorgeous-colored flowers that attract attention everywhere.

Chinese Hibiscus.

ELEVEN FINE VARIETIES.

THE plants under the hottest sun produce enormous flowers in great numbers, and make noble specimens. We have had plants of Hibiscus that were almost hid with their large, beautiful flowers. The foliage remains on the plant both Summer and Winter, and it is of the very easiest culture. The blossoms average six or eight inches in diameter, and are gorgeously colored. A very good way to make them bloom freely and to facilitate the lifting in the Fall is to transplant into a pot two or three sizes larger than the one it has grown in, then plunge the pot altogether into the ground, the soil to cover the surface one or two inches. Sufficient nourishment can be found at the top and bottom roots to make the plant bloom well without starting it to grow too vigorously, and therefore to bloom less. Then in the Fall the plant can be lifted without injury, and it will, in a warm, sunny window in a warm room, bloom constantly.

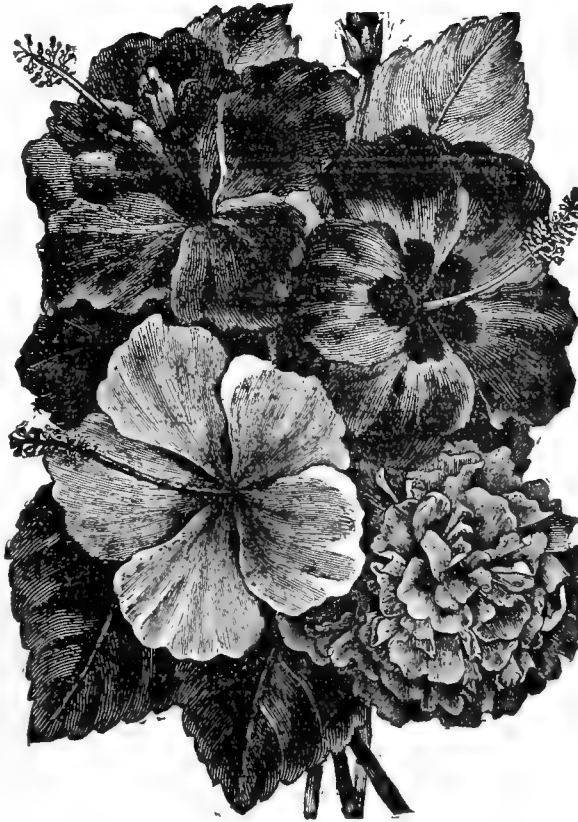

Price, 10 cents each, except where noted. Six sorts, of our selection, 50 cents.

Hibiscus, Auriantica.—Large and double, with orange-colored flowers.

Chinensis Giganteus.—This is a plant for house culture during Winter or Summer, or for planting outside during Summer. It blooms at all times of the year. The plants branch freely and flower profusely, commencing to bloom when not more than a foot high. As a specimen plant for large pots it has no equal only in the *Brugmansia*. Its flowers are of enormous size, often eight to ten inches across, opening flat, and of such a vivid crimson-scarlet color that they can be seen for a long distance like a flaming torch. It is hard to find anything among flowers more strikingly showy. They can be wintered in a cellar or pit with perfect safety, and if one does not care to grow them all Winter one should have one or two for Summer display. No plant is surer to grow and thrive under any treatment than this, and few can ever be so satisfactory. Price, 20 cents each.

Double Crimson.—This grand variety has immense flowers of the richest crimson. Combined with glossy foliage renders it the best of all. Price, 15 cents each.

Carminatus Perfectus.—Full round flower of perfect shape, and of a rich, soft carmine-rose, with a deep crimson eye. Fully six inches in diameter.

Senator Evans.—A beautiful double flowered Hibiscus. The shape of its flower is identical with the *Auriantica*, and has the same purple markings at the base of the petals. The color of this variety, instead of being orange, is a bright lemon color. Price, 20 cents each.

Magnificus.—A very large flower, and of perfect form. Color a deep magenta, ends of petals touched with brown, foliage finely toothed.

Sub-Violaceous.—Flowers of enormous size, of a beautiful carmine, tinted with violet, probably the largest flower of the *Hibiscus* family, and an unusually free bloomer. We take great pleasure in recommending this fine plant.

Versicolor.—A variety combining in its flowers all colors of the whole family, being handsomely striped crimson, buff, rose and white. Flowers eight inches in diameter.

Zebrinus.—Double, the outer petals scarlet, edged with yellow, inner petals are very irregular, curiously variegated with creamy-yellow and white.

Collerii.—Flowers buff-yellow, with a crimson-scarlet base. Peculiarly handsome and double.

Grandiflorus.—Rich, glossy, cut-leaved foliage, literally covering the plant with scarlet-crimson flowers.

SPECIAL OFFER.—We will send the entire set of eleven distinct kinds of Hibiscus for \$1.00.

HARDY HIBISCUS.

This magnificent Hibiscus is unequaled among hardy plants for gorgeous beauty. The flowers when fully expanded are eight inches in diameter, and of all shades of red, pink and white, blooming from July until September. Perfectly hardy, and come up new from the ground each Spring. We offer both seeds and plants. Perfectly hardy everywhere. Price, 15 cents each; four for one year plants; four for 50 cents. Seeds, 10 cents per packet.

THE CRIMSON-EYED HIBISCUS.

This new Hibiscus, of which we own almost the entire stock, and which we offered for the first time last year, is having such a remarkable sale that it is becoming one of our specialties. It is a variety of the large-flowered hardy Hibiscus. The flowers are pure white, with a brilliant crimson spot or eye at the center. They are produced in great numbers, and the most showy we have among our hardy plants. Price, 15 cents each; four for 50 cents.

MEYENIA ERECTA.

A beautiful, robust-growing shrub that blooms through the early Spring and Summer months with a profusion of large Gloxinia-shaped flowers of dark purple, shaded porcelain-blue, golden throat. A most magnificent flower. Price, 10 cents each.

ACHANIA MALVAVISCUS.

From the time it is three or four inches in height the *Achania* blooms, and it matters little what the season; but its best showing is usually in the Winter. Certainly nothing could be more accommodating in habit, for the plant is always healthy, grows to a great size in time, and blooms very freely when others are scarce. The brilliant scarlet flowers are upright and peculiarly formed. They are carried upon the extreme end of the branches. Price, 10 cents each.

SMILAX.

This very great climber is a great addition to our basket plants, possessing the rare qualities of delicate and tolerably dense foliage and vining habit, admirably adapting it to clinging or drooping, as may be required. For using as a green with cut flowers, it has no equal, its hard texture enabling it to keep for several days without wilting after being cut. It is also fine as a parlor or window plant. Price, 10 cents each; three for 25 cents.

ALOYSIA CITRIODORA—LEMON VERBENA.

Foliage delightfully fragrant. To simply brush against it is enough to scent an entire room with its delicious odor. Planted out of doors, it grows into a fine, large clump, and it can be taken up in the Fall and wintered over in the cellar. Price, 10 cents each; three for 25 cents.

SPECIAL OFFER.—The two Hardy Hibiscus and the four last plants mentioned for 50 cents.

OTAHEITE ORANGE.

This valuable and distinct variety of the Orange family is a dwarf, compact grower, with glossy, deep-green foliage, which has a decided odor of the orange trees of Florida, and is exceedingly floriferous, producing a wonderful profusion of pure white flowers of the most delicious fragrance, identical with the much-sought-for blooms of Southern orange groves. Otaheite fruits immediately after flowering, bearing fruit about one-half the size of the ordinary orange, retaining in a marked degree their sweetness. This unique Orange cannot be equaled as a Winter-blooming pot plant for house culture, and is of the easiest culture. Requires but little sunlight, and flowers and fruits when but twelve to fifteen inches high. As a pot plant this lovely dwarf orange is one of the most novel and beautiful that can be grown. With a couple of plants of it you can have an abundance of the far-famed delicate and fragrant orange blossoms. We have grown a large stock of clean, vigorous plants that will bloom and fruit at once of this beautiful Orange, and commend it to our friends as a novelty of sterling worth and merit. Price, good plants, 10 cents each; large, strong plants, to bloom and bear profusely at once, 25 to 40 cents each, according to size.

What One of Our Customers Says of the OTAHEITE ORANGE.

THE GOOD & REESE CO.—Gentlemen: In the Spring of 1890 I purchased from you a plant of the Otaheite Orange. I now have the pleasure of writing you about my success with it. On its arrival I planted it in rich soil in a common tomato can. It commenced to grow at once, and was soon covered with its beautiful, fragrant blossoms, which were followed by six nice oranges. The bush then was only one foot in height. I kept it growing by repotting into larger cans and boxes until it has grown to be a nice-shaped, bushy little tree three feet high, and I counted on it Christmas day one hundred and eighty-seven oranges in all stages of development, sixty-three of them being a rich, golden yellow. It is needless to say I am delighted with it, as aside from the fruit I and my friends have had orange blossoms the year round, as it is almost constantly in bloom. It is very easy to grow and manage, and I cannot imagine a more lovely plant. MRS. EMILY HENDERSON, Texas.

PHLOX—HARDY PERENNIAL.

The new French varieties all carry very fine, distinct, pure colors, in great trusses, many of them beautifully shaded and marked with very distinct, clear, bright eyes. They require no care but dividing and resetting every second year. Their vigorous growth and freedom of bloom make them very useful plants, while they are unexcelled in beauty. The improvement made in this beautiful class of plants is perhaps more marked than in any other section of the hardy herbaceous family. Instead of the thin flowers which were limited to lilac and white colors, we now have gorgeous flowers, combining all the different tints of rose, carmine, red and purple, to say nothing of the pure whites and salmon, with their distinct eyes. Perfectly hardy everywhere. Price, 10 cents each; the set of six for 50 cents.

Phlox, Cross of Honor.—A beautiful light rose color, striped pure white. An excellent flower.

Flora McNab.—Pure white and free.

Lothair.—A brilliant salmon rose.

Princess de Furstenburg.—White, with carmine eye.

Sir E. Landseer.—A very brilliant, dark crimson. A large, fine flower.

Triumph de Twickle.—A rosy magenta.

OUR MAGNIFICENT GLADIOLI.

Of all our Summer-flowering bulbs, the Gladioli stand eminently at the head. The flowers are produced in spikes two feet in height and upward. The brilliant scarlet-crimson of some form a striking contrast with the delicate shades and pencillings of the lighter-colored varieties. Price, for the very best mixture of named sorts, 5 cents each; 50c per doz.; twenty-five for \$1.00.

**CLEMATIS.**

These are charming vines that are perfectly hardy, and are too well known to need description. Our roots are extra strong, and will give great satisfaction. Blooming this Summer if planted early.

Duchess of Edinburg.—This is without doubt the best of the double whites. It is very free-flowering and very fragrant. Price, 60 cents each.

Jackmanii.—From four to six inches in diameter, intense violet-purple, with a rich, velvety appearance, and distinctly veined. The best. Price, 50 cents each.

Languinosa Candida.—The flowers are large, six to nine inches in diameter, almost pure white. One of the best. Price, 50 cents each.

Kermisenus Rubra.—This beautiful Clematis is much sought after, but is very scarce. The color is a bright, rosy-red, entirely distinct from any other sort. A persistent bloomer and strong grower, with large flowers. A grand variety. You should try it. Price, 60 cents each.

SPECIAL OFFER—The four distinct kinds of Clematis for \$2 00.

CESTRUM, OR NIGHT-BLOOMING JASMINE.

These beautiful shrubs are cultivated for the delicate fragrance of their elegant flowers, which are borne in clusters. Of easy cultivation.

Parqui.—This well-known and highly prized plant, blooming nearly all the year, is a native of Chili. An excellent garden plant, growing rapidly. Foliage long and of a deep green color. Produces its richly fragrant flowers at every joint. Sweet only at night. It is also well adapted to house and window culture. Price, 15 cents each.

Laurifolium.—A handsome plant, with large, glossy foliage and pure white flowers. Price, 10 cents each.

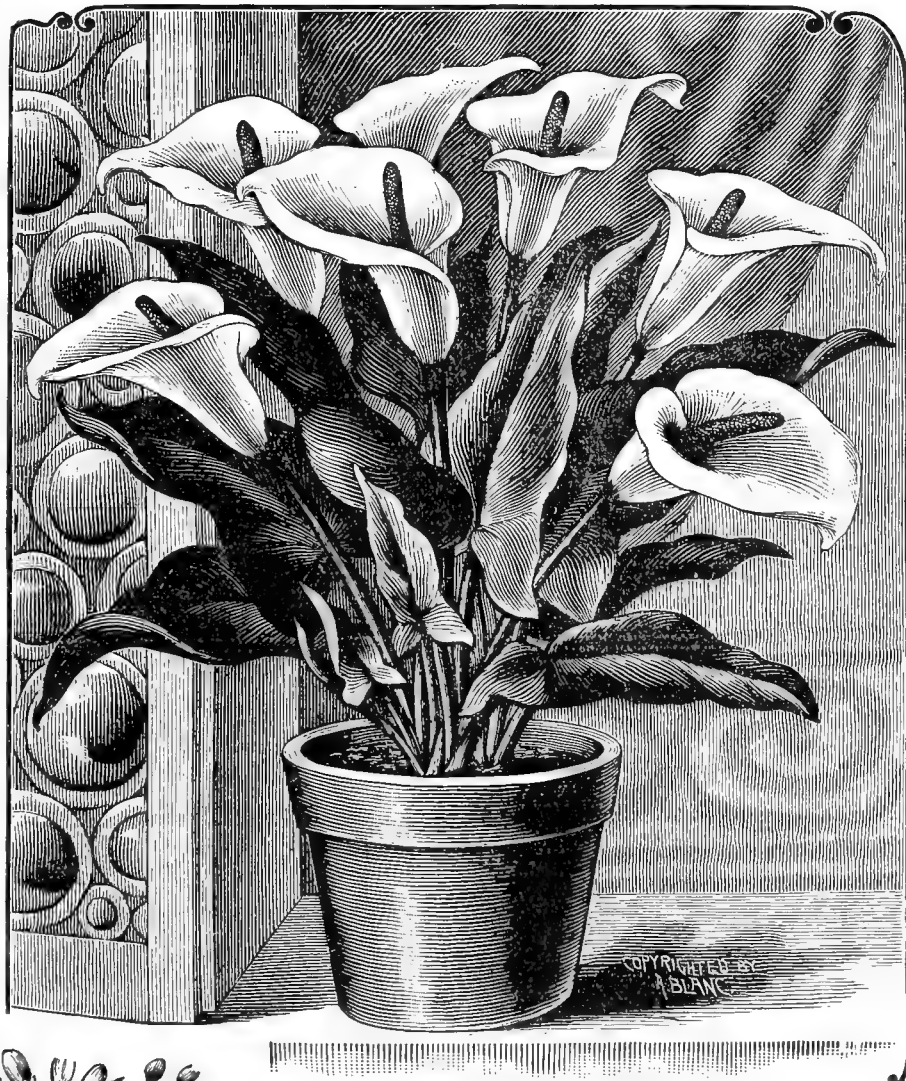

The two Cestrams for 20 cents.

NEW DWARF EVER-BLOOMING CALLA LILY.

It is our good fortune to have come into possession of this most valuable of all Callas. The following facts will convince any one of its great superiority over the old sort: It is of a dwarf habit, and does not grow tall and scraggy like the old variety, but is compact, with a great abundance of lustrous, dark-green foliage. It is a true ever-bloomer, its flowers appearing in great abundance both Summer and Winter when grown in pots, or it will bloom profusely all Summer long in the open ground, and being potted in September will continue blooming without intermission all Winter. The same plant will grow and bloom for years without once ceasing, and the quantity of bloom which a good plant will produce is astonishing. It is estimated that six plants of the old sort will not produce so many flowers in the course of a year as will one plant of this new dwarf variety. A large plant is hardly ever without one or more flowers, and its dwarf, compact habit makes it a much more desirable pot plant than the old variety. Its flowers are large size and snowy-white in color. All in all it is one of the most desirable plants we ever offered. Price, bulbs of blooming size, 25 cents each; extra large, 50 cents each.

CALLA ETHIOPICA.**(EGYPTIAN LILY.)**

This is the well-known Egyptian Lily, or Lily of the Nile, with large white flowers, broad foliage, and it will prosper under very adverse circumstances. We have three sizes. Price, small plants, to bloom next Winter, 10 cents each; strong blooming bulbs, 25 cents each; extra strong bulbs that will produce a half dozen of bloom, 50 cents each. If you want large Callas send to us, as we are headquarters for them.

New Dwarf Ca'la Lily.

CALLA RICHARDIA. (SPOTTED CALLA.)

A plant with beautiful spotted leaves. It flowers abundantly during the Summer months, when planted out in the open border. The flowers are shaped like those of a Calla, and are pure white, shaded with violet inside. Keep dry in Winter, and start in the Spring like a Dahlia. This plant belongs to the same order as Calla Ethiopica. Price, blooming bulbs, 20 cents each.

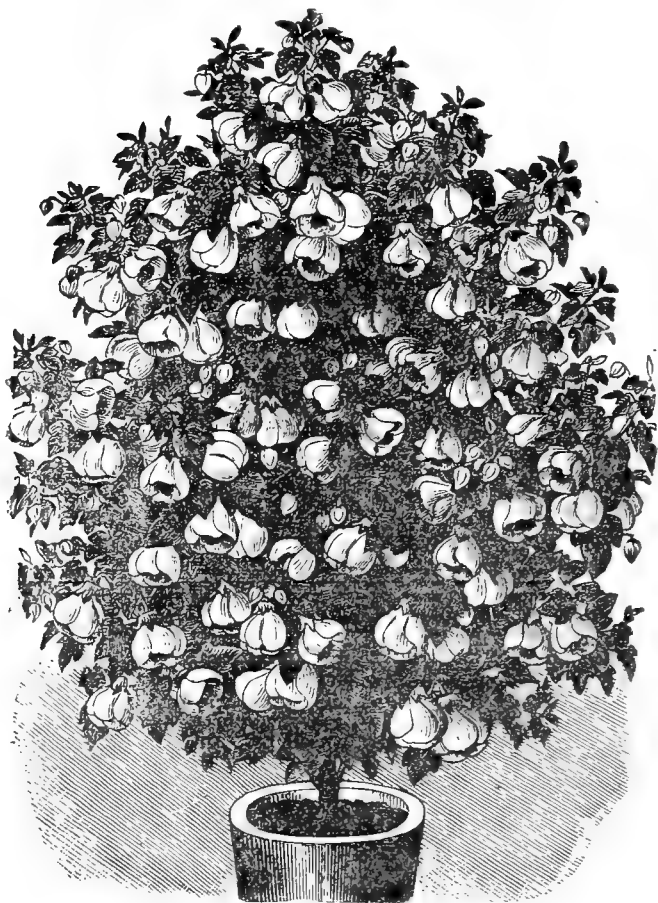

Chinese Matrimony Vine.

The Hardy Chinese Matrimony Vine.

The old-fashioned Matrimony Vine was a general favorite more than fifty years ago, but in beauty of flower, fruit and foliage it cannot compare with this superb variety. It is a most vigorous, hardy climbing plant when trained to an arbor, fastened to a fence, attached to a tree, to the side of a house, the pillars of a piazza, or in any location where a hardy, vigorous climber is desired. It sends out numerous side branches, so that it covers a great amount of space in a short time, and every new growth is at once covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long, every branch being loaded with them. The contrast between the glossy, dark-green foliage and shining scarlet fruit is extremely beautiful, surpassing Holly in appearance. It continues flowering and new berries are forming from late Spring until frost. The berries ripen in early Autumn and remain on the vine late into the Winter. The number of our hardy vines which can be grown without danger from frost in our Northern States is limited, and none are more beautiful than this or as easy of culture. It will grow and thrive in any situation, either shade or bright sunlight, and will take root in any soil. In fact, nature has given it all the essentials for wide popularity. Valuable as it is for covering fences, etc., it is even more desirable for clambering over stone walls, bare rocks or unsightly banks, covering them quickly with bright green foliage, and later on rendering them objects of beauty with its wealth of scarlet berries and purple flowers. This splendid vine was illustrated and highly recommended in "Garden and Forest," one of the most conservative publications in the horticultural press. Price, young plants, which will bloom and fruit abundantly this year, 15 cents each; three for 40 cents.

ABUTILON, CHINESE BELL FLOWER.

Specimen Abutilon from Photograph.

The Abutilon, or Flowering Maple, is a plant of easy culture. It is beautiful, both in leaf and flower, and is very profuse in bloom. The rich, pure, bright reds and clear yellows that have been added to the varieties of late years have placed it high among decorative plants, besides being especially valuable for its graceful pendant blooms when used for floral pieces or for the corsage. The Abutilons we offer are perpetual bloomers, and we wish all our friends to order a few Abutilons and see how fine they are. They are not the old tall-growing varieties that never bloom.

Price, 10 cents each, except where noted.

Robert George.—A free and continuous bloomer. Flowers broad, their large, overlapping petals incurved; color orange, veined with crimson.

Shower of Gold.—A beautiful, dwarf-growing variety, the whole plant being covered with a profusion of beautiful golden-yellow blossoms. Price, 15 cents each.

Thompsonii Plena—New. Has perfectly double flowers that resemble in form a double hollyhock. Color a rich, deep orange, shaded and streaked with crimson. The foliage is delightfully variegated. Price, 15 cents each.

Splendens—A beautiful velvety-crimson.

Scarlet Gem.—A rich, bright scarlet.

Madame Chobert.—Very dwarf grower, and the blooms literally cover the plant. Of a clear pink shade.

Snow Storm.—Pure white flowers, and bloom freely. Dwarf. Price, 15 cents each.

Eclipse.—This is an elegant foliage plant, and one of the prettiest we know. It is new, and the flowers, which are produced in profusion, set the plant off to good advantage.

New Abutilon, Souvenir de Bonn.—This is a charming plant. The body of the leaf is a deep, rich green, bordered and edged with purest white. It is a lovely plant to go with Palms or other decorative plants. Price, 20 cents each.

SPECIAL OFFER.—The nine new Abutilons for 75 cents.

LANTANAS, OR SHRUBBY VERBENAS.

The brilliant colors, robust growth and profuse blooming habits of the Lantana render it one of the finest bedding plants we grow. The flowers embrace all of the most delicate shades of orange, sulphur, creamy-white, etc., changing from one distinct odor to another as they increase in age and development. The varieties we have give a wide range of color, and include the most distinct and profuse varieties. Price, 10 cents each; six, our selection, for 50 cents.

AZALEA INDICA.

Azalea Indica.

One of the most gorgeously blooming families, together with the showiest of all greenhouse plants. The colors of the flower vary from the purest white to the deepest crimson in untold variations. The soil should always be packed hard when transplanted. Their success depends, however, on the degree of moisture in the atmosphere in which they live. We have a number of the best flowering sorts that will flower finely this coming Winter, both double and single-flowered, in any color desired. The plants we offer are magnificent specimens, the finest you have ever seen, and all will bloom this year. Price, 50 cents each; fine, large plants, three years old, 75 cents each.

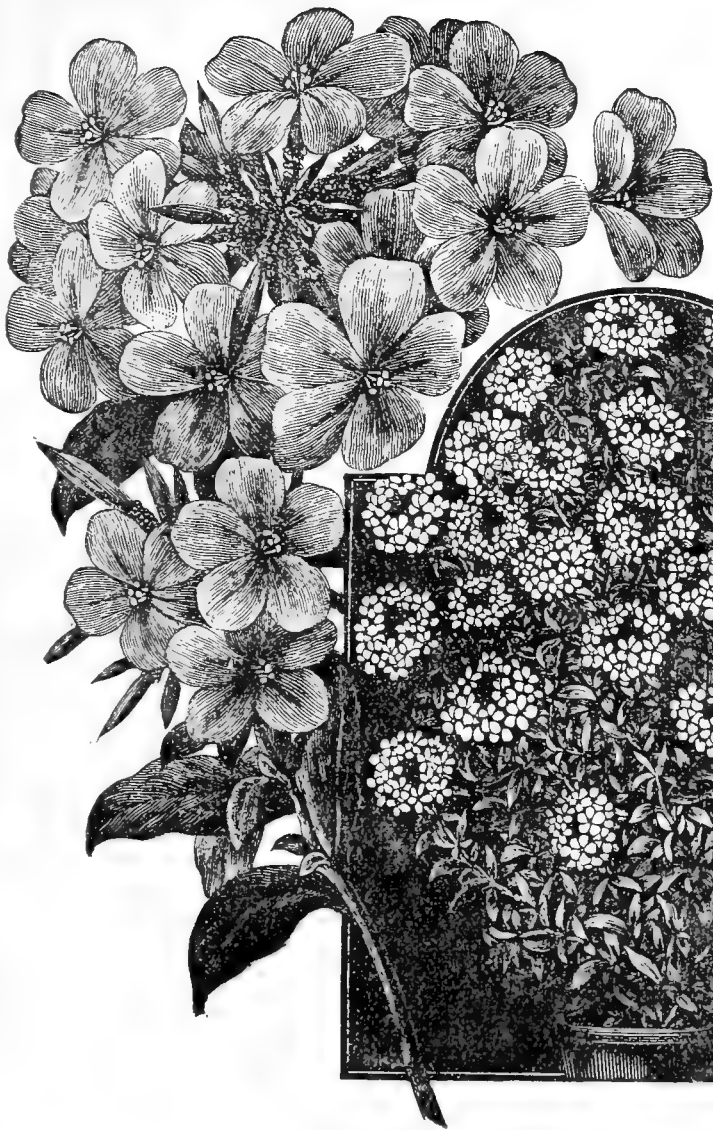

N.B.—Be sure and try our Azaleas; they will not disappoint you. In ordering, name the color you wish. We can furnish them in the following colors: White, pink, crimson, salmon, rosy lilac and white striped with crimson.

THE QUEEN OF NIGHT CACTUS.

The Queen of Night Cactus.

Decidedly the grandest flowering plant in cultivation. Imagine a dozen flowers unfolding with the setting sun their hundreds of white, wax-like petals, encircled by a wreath of gold, in continual motion! Imagine such a flower three feet in circumference, perfuming the surrounding air with the most delicious fragrance known! Does it not deserve its royal title? It grows and blooms with the greatest ease, requires absolutely no care, living for months without water, increasing in value yearly. We have the genuine variety, the only one with fragrant flowers twelve to twenty inches across, and can furnish one-year-old plants that will bloom next Summer, by mail, for 15 cents each.

Plumbago Capensis and Capensis Flore Alba.

PLUMBAGO.

Plumbago, Capensis Flore Alba.—This is a splendid novelty. The exact counterpart of Plumbago Capensis except in color, which in this beautiful novelty is a clear white. This is one of the leading new plants of the year. Do not confound this with the old worthless white. One of the most satisfactory bedding plants out. We recommend this highly. Price, 10 cents each.

Plumbago, Capensis.—This produces large heads of light blue flowers. It has the most peculiar shade of blue of any flower in cultivation. It is always in bloom, and an elegant bedder. Price, 10 cents each.

Plumbago, Rosea.—This is the prettiest of all, bearing in profusion large bracts of deep rose-colored flowers. Very showy and distinct. Price, 25 cents each.

PLUMBAGO, LADY LARPENT.

This beautiful variety of Plumbago (*P. Larpentæ*) was first popularly introduced in 1890. Since that time it has so thoroughly pleased all who have planted it, achieved such great popularity, which, coupled with our own thorough tests and observations, demonstrate that it is unquestionably the most distinct and valuable hardy herbaceous plant now in cultivation. The plants are strong, upright in habit, growing to a height of twelve to fifteen inches in compact clumps, and from the middle of July until severe frost are covered with lovely rich violet-blue colored flowers borne in close terminal heads. (We had thousands in bloom on our grounds the past season as late as October 25th.) The foliage is unique, finely serrated and fringing the stems. We heartily recommend this fine variety for edging walks, beds or borders, or single specimens set in mixed flower vases or beds, where they appear in lovely contrast with other flowers. Price, 15 cents each.

SPECIAL OFFER.—The four beautiful Plumbagos for 50 cents.

BOUVARDIAS.

Shrubby plants with corymbs of white rose, crimson and scarlet flowers, blooming during the Summer and Winter. Their dazzling richness of color and formation of flower make them one of the most useful of our Winter-blooming plants for bouquets. They are also effective as bedding plants from July until frost. These plants usually lose their leaves after being shipped, but if potted and not watered too heavy they will soon start again.

Price, 10 cents each, except where noted.

The Bride.—A lovely waxy-white. A compact and vigorous grower.

Alfred Neuner.—Large, double flowers, composed of three perfect rows of petals of the purest waxy-white color. Price, 15 cents each.

President Garfield.—A lovely shade of pink and perfectly double. Price, 15 cents each.

Dazzler.—A splendid variety. Of a bushy, compact habit, producing fine clusters of attractive, moderately large, rich, scarlet flowers.

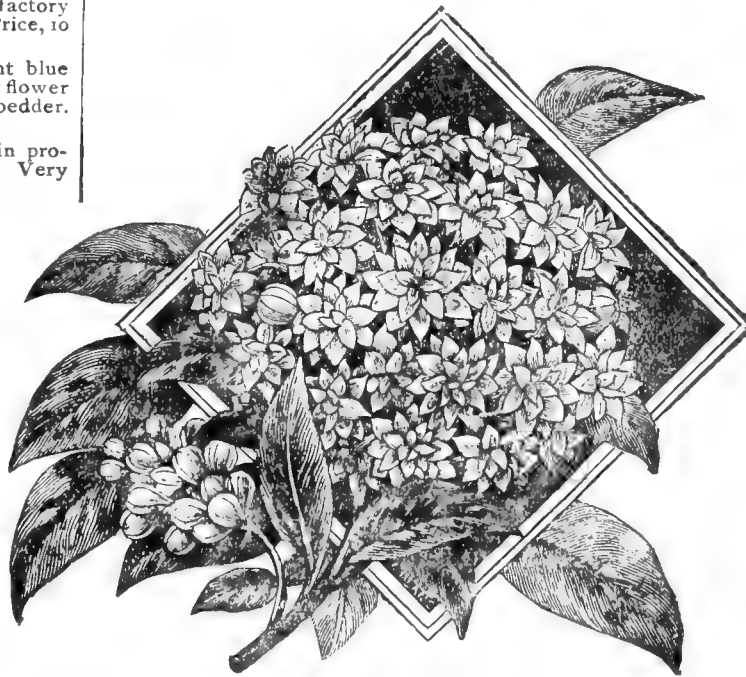

NEW BOUVARDIAS.

New Bouvardia, Humboldtii Corymbiflora.—In this plant we have the ideal Bouvardia. It is a stout, erect, strong grower, making charming-shaped plants, and the flowers—how shall we describe them? They are very large, indeed. They are so large and the petals are so thick in texture that persons unacquainted with it never suspect it a Bouvardia. The flowers are about the size of the Star Jasmine. They are star-shaped, pure white, and of waxy texture, while the fragrance is as delicious as the Jasmine. This plant captivates everybody with its elegance. Price, good plants, 15 cents each.

New Bouvardia, President Cleveland.—A brilliant scarlet-crimson variety of great merit. This is an excellent variety, and worthy of extended culture. Price, 15 cents each.

New Bouvardia, Vulcan.—The richest and darkest-colored Bouvardia ever sent out. Color a rich crimson-maroon, very free bloomer and good grower. Price, 15 cents each.

The entire set of seven Bouvardias for 60 cents.

Double Bouvardias.

FOUR BEAUTIFUL PALMS FOR 50 CENTS.

The following is a select list of rare and handsome varieties that can be recommended for apartments, conservatories, decorations or vase plants during Summer. They are all grand plants, and of the easiest culture. We can furnish extra large Palms that are fine specimens at from \$3.00 to \$5.00 each.

NOTICE.—It may be well to state here that young Palms do not resemble the illustration given, as they do not show their character leaves until the second year, so that when you get your Palm plants and see long, narrow leaves instead of the character leaves, as shown in the illustration, do not think that the wrong kind has been sent you.

Palm, Washington Filifera.—A beautiful Palm is one of the finest additions that can be made to any collection of plants, but the high prices of the best varieties have prevented most people from possessing one. Then, again, there are but few of the best sorts which succeed well with ordinary window culture. It is, therefore, with pleasure that we are now able to offer one of the most beautiful sorts in existence, and one that is hardy and robust enough to succeed anywhere, at a price which brings it within the reach of all. It has elegant dark-green, fan-shaped leaves, from which hang thread-like filaments, as seen in the cut. The plant is a compact grower, well adapted to pot culture, succeeding in any situation, and with any treatment that will keep a Geranium alive. It will flourish in any window for anybody, making a grand ornament during Winter, and in Summer it can adorn a veranda, or be placed about the garden or yard, or used for a center in a vase, basket or flower bed—always ornamental anywhere. All Palms of the fan-leaved sorts have, when young, leaves of a long, narrow shape, developing the round, fan-shaped ones as they grow older. Therefore, when you get your plants and see long leaves instead of round ones, do not think that a wrong sort has been sent you. Price, strong plants, 15 cents each; four for 50 cents.

Latania Barbonica.—The well-known favorite Fan-Palm, beautiful in all stages of growth. No plant is more easily grown, and none more tenacious of life, enduring the dust, the cold and heat from open windows and gas-heated air of our dwellings. The demand for this particular kind is perhaps five times that of any other. Leaves large, fan-shaped, of a cheerful green color; plant or hardy constitution, and adapted to all decorative purposes, within or without doors; appreciated by all the plant-loving community. Price, 15 cents each.

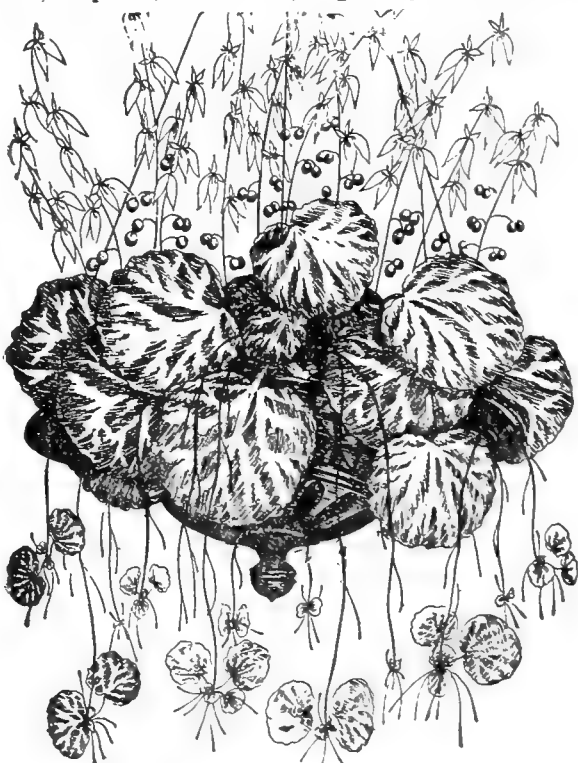

Seaforthia Elegans.—This is a most graceful Palm, eminently adapted for decoration of the greenhouse or garden. It also makes a fine window plant. Leaves are long and gracefully arched, dark-green, and the whole plant is perfectly smooth, making it a grand decorative plant. Price, 20 cents each.

Areca Lutescens.—One of the most valuable and beautiful Palms in cultivation. Its dark, glossy-green leaves are gracefully curved on stems, and the entire foliage is gracefully disposed. The trunk and stems are golden-yellow. Price, 20c each.

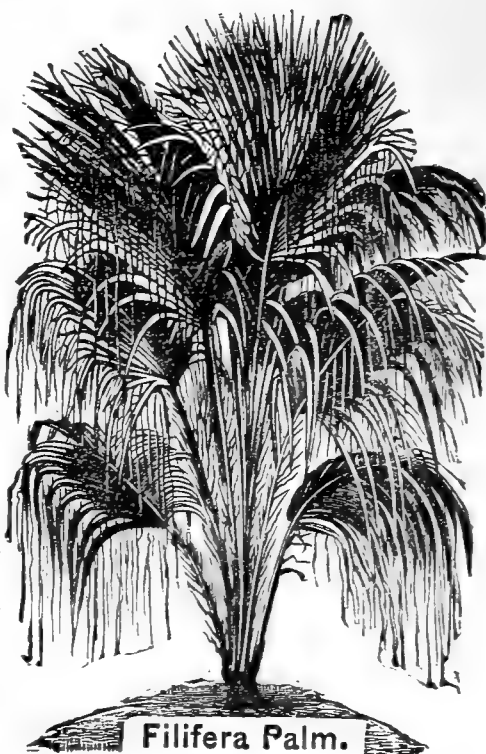

SPECIAL OFFER.—The above four elegant Palms for 50 cents.

SANSEVERIA ZEALANICA.—A New Decorative Plant of Great Beauty and Value.

A beautiful plant, splendidly adapted for the decoration of drawing-rooms and halls, as it stands drouth and dust with impunity, and requires scarcely any water. The leaves, as shown in cut, grow to a length of three to four feet, and are beautifully striped cross-wise, with broad, white variegations on a dark-green ground. It is a rare and beautiful plant, which should be abundantly grown for positions out of reach of the sunlight, where other plants will not thrive. When you consider that it can be placed in any position in any room and do well, its great usefulness is at once apparent. It has a singular beauty for decorative purposes which other plants do not possess, and is useful both Winter and Summer. Though grown mainly for the beauty of its foliage, it is by no means an insignificant flowering plant; it blooms usually during May and June, sending up great plume-like spikes a foot or more in length. The flowers are numerous and composed of long, narrow petals, which recurve gracefully, and are of a creamy-white color. It is difficult to find a more unique or ornamental plant than this, especially when it is in bloom. Price, fine plants, 10 cents each; large, fine plants, 25 cents each. These are beauties.

Saxafraga Sarmentosa.

Filifera Palm.

SAXAFRAGA SARMENTOSA.

A handsome plant of low habit, leaves nearly round and striped freely with silver bands blooms white, of great beauty, and borne in spikes nearly twelve inches high. Fine for hanging baskets, vases, etc. Price, 15 cents each; two for 25 cents.

Sanseveria Zealanica.

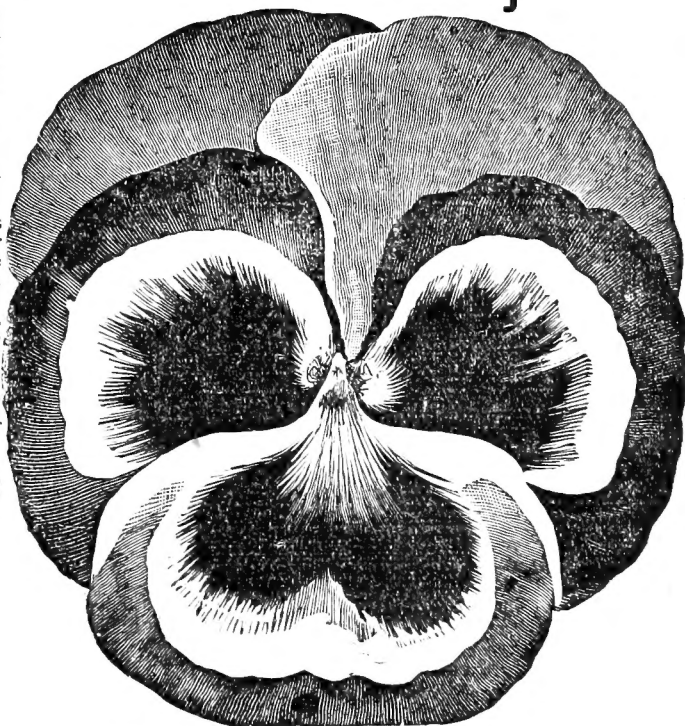

Good & Reese's International Mixture of Pansy Seed.

We are possessed of some advantages as seedsmen which are worth noticing in connection with our trade in Pansy Seeds, and we wish our customers to know them, and be assured that their orders with us are in good hands. First, we carry one of the most extensive stocks of Florists' Flower Seeds in America, and supply a large number of these most critical and careful buyers. Second, we have at our store each season the most exacting amateur buyers who show us their preferences in fancy markings, etc., from our plants in bloom, and finally, we have made personal inspections of the Pansy Seed farms and trial grounds of England, Germany, France and America. The result of our observations of the various strains produced, and of the favorites in our market, prompted us to prepare and introduce in 1883 our **International Mixture**. It has proven more popular than we could have reasonably expected, and we may honestly claim it to be to-day not only the best, but the most widely known and admired. It contains, besides all the leading kinds of commerce, seeds of the Giant, Bugnot, Cassier and Trimarcean, with flowers measuring when well grown three inches in diameter, and such beautiful colors as gold, bronze, silver-edged, marbled, mahogany, spotted, claret-red, and many others. Our **International Mixture** will produce for you, as it has for others, a Pansy bed which shall be the wonder of the neighborhood and the joy of the owner. Price, 20 cents per packet.

International Pansies in separate colors at 5 cents per packet, or the entire collection of fourteen varieties for 50 cents. Be sure and try them.

International Pansy Plants, 5 cents each; 35 cents per dozen; thirty-five for \$1.00.

Azure Blue.—Very fine; a beautiful shade.
Bronze Color.—A new and striking color.
Cliveden Purple.—A rich, dark purple.
Dark Blue.—Rich and lasting.
Fawn Color.—A beautiful shade of fawn.
King of the Blacks.—Almost coal black. A beauty.
Mahogany Colored.—A beautiful color.
Marbled Rose.—A handsome combination of colors on various grounds.
Yellow Gem.—Generally true to color.
Brilliant.—Bright coppery colors, but not strictly red.

Striped and Mottled.—Fine and exceedingly beautiful.
Violet Queen.—White border, somewhat resembling the fancy Geraniums.
White Wings.—White, with black eye.
Yellow Margined.—Beautiful color, with margins or belt of yellow.

VIOLETS.

Of all delightful perfumes, that of Violets is the most delicate and pleasing, and places the modest little blue flowers among our greatest favorites. Violets grow and bloom during the dead of Winter with no trouble whatever, if given a cool situation, but will not succeed in a warm place. A cold frame, from which frost is barely excluded, is their best location. The following three sorts are the best of all violets, and are all distinct in color.

New Double White Perpetual Flowering Violet, Swanley White, or Queen of Fragrance.—Of all the white Violets this is the best, either for pot culture in the house or bedded out. In pots it grows luxuriantly and is loaded with flowers. It is not an uncommon sight to see as many as fifty large flowers open at once, presenting a beautiful sight, their delicious perfume filling a whole room. Price, 10 cents each.

Violet, "Baby Blue."—New. This is by far the best blue Violet grown, deliciously fragrant and very prolific. The color is a delicate blue, hence its name, "Baby Blue." The growth of the plant is vigorous and healthy. Valuable either in pots or planted out. A charming contrast with the white variety, Swanley White. Price, 10 cents each.

Madame Millet.—Color of this exquisite new Violet a beautiful shade of purple, delicately tinted with carmine, almost red. Flowers large, very double, exceedingly sweet, borne in great profusion from April until December. Price, 15 cents each.

SPECIAL OFFER: The three Violets for 25 cents.

New Violet, Swanley White.

TUBEROSES.

The pure waxy color and delightful fragrance makes these the most popular of all flowers for bouquets and baskets. Our bulbs are very fine, and we guarantee that all will bloom if properly treated. Price, 10 cents each; twenty for \$1.00; twenty-five by express for \$1.00.

Double Tuberoses, Pearl.—The value of this sort over the common variety consists in its flowers being of large size, imbricated like a Rose, and of dwarf habit, growing only from eighteen inches to two feet in height, its short growth making it desirable as a pot plant or for Winter forcing. Price, 10 cents each; fifteen for \$1.00.

Tuberoses, Excelsior Pearl.—This variety is dwarfer than either of the other varieties in cultivation. Very large, pure white flowers, beautifully imbricated, delightfully fragrant, very double. Price, 15 cents each; six bulbs for 75 cents.

Best New Sweet Peas.

Sweet Peas.

Most deservedly have Sweet Peas had a new impetus given to their popularity by the introduction of beautiful new varieties the last few years. So extremely fashionable have they become that we now sell thousands of pounds of seed where we formerly

sold a few hundred. Each year we have been making extensive trials of the new varieties, and can recommend the extremely beautiful new named varieties in the following list of "Best New Sweet Peas."

Price, 5 cents per packet; 15 cents per ounce; one-fourth pound, 50 cents.

Isoreatton.—A very fine dark Pea with bold, stout flowers, color deep maroon. Distinct and beautiful.

Isa Eckford.—Creamy-white, suffused with rosy-pink.

Orange Prince.—Of rare beauty; bright orange pink, flushed scarlet; wings rich rose, veined with pink.

Splendour.—Rich, bright, pinkish rose, shaded with crimson; flowers large, of finest form. Certificate from Royal Horticultural Society.

Purple Prince.—Maroon standards, shaded with bronze, and purple blue wing. Very fine and superb.

Queen of England.—Grand, pure white flowers of extra large size and especially choice.

Prince of Wales.—Shaded and stained with mauve on a white ground in the most pleasing manner.

Duchess of Edinburg.—(Autumn Tints.) Very beautiful, standard light scarlet, slashed with crimson, slightly margined at the edge with cream-white, wings tipped with rose.

Apple Blossom.—Bright rosy-pink blush. Extra fine.

Primrose.—A near approach to a yellow Sweet Pea, quite novel and distinct in color. The standards and wings pale Primrose-yellow. First-class certificate by the Royal Horticultural Society.

Miss Blanche Berry.—After thorough trials, we can most heartily recommend this new early flowering Sweet Pea. It bears large pink and white flowers like the beautiful and ever popular Painted Lady Sweet Pea, but is very much more free-flowering and at least ten days earlier in blooming. The beautiful flowers are richly fragrant and produced in the greatest abundance for a long time. It is most valuable alike in the private garden and for florists' use.

Cardinal.—Crimson-scarlet, extra fine.

Mrs. Gladstone.—Delicate pink standards, wings blush, edged with delicate pink. Exquisite.

Delight.—Wings white, standards white, beautifully crested with crimson. Small, but very pretty.

Empress of India.—Clear rosy-pink standards, white wings, large and very pleasing.

All of the foregoing are 5 cents per packet; any six packets for 25 cents; or we will send the entire collection of fifteen varieties for 50 cents. A wonderful offer.

Eckford's New Sweet Peas.—(Finest Mixed.) Besides the varieties in the above list of Mr. Eckford's raising, this mixture also includes seed of several others of Eckford's new varieties, giving many new and beautiful varieties which heretofore have been too rare to include in mixture. Price, 5 cents per packet; per ounce, 15 cents; one-fourth pound, 40 cents; per pound, \$1.50.

All New Sweet Peas Mixed.—This is our own mixture, of all the above and other distinct named varieties; we can recommend it as the finest strain of Mixed Sweet Peas ever offered. The seed is now so cheap that lovers of Sweet Peas should plant it by the pound. Price, 5 cents per packet; per ounce, 15 cents; one-fourth pound, 30 cents; per pound, \$1.10, postpaid.

Heliotropes.

These plants are universal favorites on account of their delightful fragrance. Flowering equally well as bedding plants in the Summer, or as pot plants in the house during the Winter. They delight in an abundance of water.

Florence Nightingale.—Light lavender. Price, 10 cents each.

Queen of Violets.—A violet-purple, with large eye. Price, 10 cents each.

Snow Wreath.—Nearly white, large truss. Price, 10 cents each.

NEW HELIOTROPES.

Albert Delaux.—The foliage is a bright golden-yellow, very pronounced, and marked slightly with a delicate green. In bloom it is exquisite. The deep lavender color of the flower contrasts admirably with the beautiful foliage. Price, 15 cents each.

Sapphire.—For a neat, dwarf habit, profusion of bloom and richness of odor this Heliotrope has no equal, and its vivid color of royal purple, with a distinct white center, gives us something entirely new in color, either for Summer decorations or Winter flowering. Price, 15 cents each.

The Virgin.—This comes to us heralded as far superior to any existing white variety. The introducer describes it as low-growing and with strong, luxuriant foliage. The flower is very large and of snowy-whiteness. Price, 15 cents each.

The three new Heliotropes for 40 cents.

LILY OF THE VALLEY.

The Lily of the Valley is one of those delicate, sweet little flowers that not only easily win our love, but keep it forever. Put four or five or half a dozen of the pips or bulbs in a pot, and in about four or five weeks they will flower. In the Spring transfer them to the garden. Price, fine pips, 5 cents each; 50 cents per dozen.

Heliotrope, Sapphire.

CROTONS.

The Crotons are among the finest decorative foliage plant known. The leaves of all are more or less veined and margined, sometimes entirely variegated with shades of yellow, orange and crimson. Some have long, narrow leaves, arching gracefully fountain fashion, others broad and short, oak-leaved. Some recurve very much, others twisted, cork-screw like. Crotons love heat, sunshine and moisture. The Crotons are fast becoming one of our most beautiful bedding plants. Price, 10 cents each.

Jasmines.

Confederate Jasmine, Rhyncospermum Jasminoides.—This makes an elegant hard-wooded climber, or can be trained in bush form. It bears large bunches of pure white flowers, with the most delicious Jasmine perfume. It is known in the South, where it is hardy, as the Confederate Jasmine. It will delight all. Price, 35 cents each.

Jasminum Gracillimum.—Exceedingly floriferous. A flowering shoot is produced from every joint, which terminates in a dense cluster of pure white, fragrant flowers. In bloom in the greenhouse from October to February. Price, 15c each.

Grand Duke of Tuscany.—This Jasmine is very easily grown, even small plants bearing a profusion of very double, cream-white flowers, having a delicious perfume. It is a magnificent plant, and will become one of the most valuable and popular pot plants when it becomes better known. It can be stored in a dry cellar in Winter. Price, strong plants, 50 cents each.

Grandiflorum.—(Catalonian Jasmine.) From Italy. The flowers are pure white, star-shaped, of exquisite fragrance. Price, 10 cents each.

Poetica.—Similar to the Jasmine Grand, flowers smaller, but borne on larger spikes. Price, 10 cents each.

Revolutum.—A yellow-flowered Jasmine, nearly hardy and exquisitely fragrant. Price, 15 cents each.

Jasmine, Cape.—Well known for its delicious fragrance and beauty of its flowers, which are white and double. Price, 5 cents each; extra strong plants, 30 cents each.

The set of seven distinct Jasmines for \$1.10.

CLERODENDRON, BALFOURI.

A rapid-growing climber of great beauty. It can also be trained in bush form. The flowers, which are of a bright scarlet, are encased by a bag-like calyx of pure white, the trusses or panicles of flowers are upwards of six inches in length, and when trained upon trellises and hanging down have a rich and elegant appearance, continually in bloom. A very satisfactory house plant. Price, 10 cents each.

NEW ACHILLEA, THE GEM.

We take much pleasure in calling special attention to this plant, as it is one of the most beautiful and useful. It is a hardy perennial, the top dying down to the ground every Winter. A plant will produce hundreds and even thousands of flowers the first Summer, but when established the second year they frequently have more than five thousand perfect flowers on a plant at the same time. It commences to bloom early in July, and is a perfect mass of beautiful flowers till frost, the same bloom keeping perfect two or three months. Its flowers are pure white, perfectly double, and produced in large sprays, making it one of the finest cut flowers for bouquets, vases, baskets, etc., or for any kind of decorations. For cemetery planting it is the most valuable of all flowers, as it is sure to thrive and bear its profusion of snow-white flowers nearly the whole Summer for years and years. The plants we supply will have abundance of roots, with, but little top. They will all grow rapidly and produce abundance of bloom this Summer. They can either be potted or planted in the open ground as soon as received. It is much superior to the old variety. Price, 15 cents each; three for 40 cents.

CRAPE MYRTLE.

These are elegant, well-known shrubs. Hardy in the South, bearing their beautiful, fringed flowers in immense sprays. They charm every one. In the North plant in tubs and winter in the cellar. We have the pink, crimson and purple varieties. Price, 10 cents each.

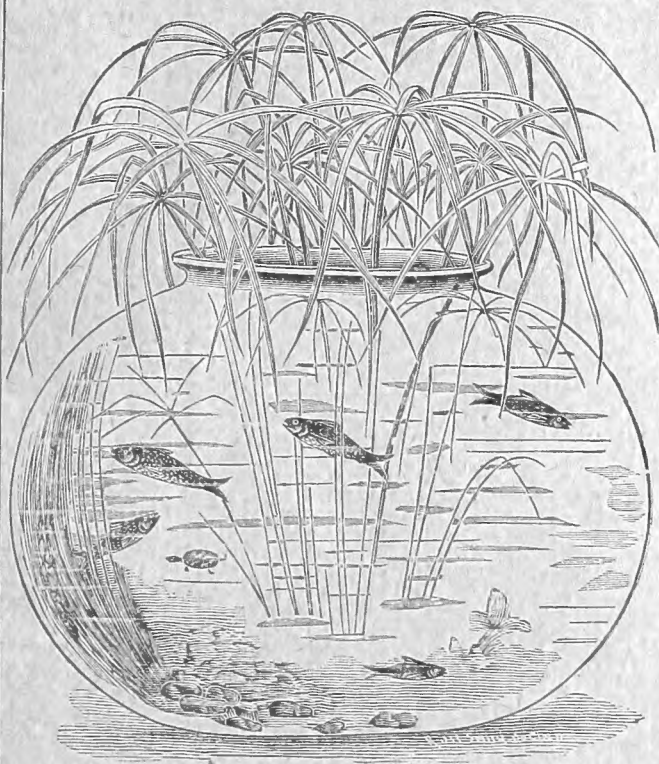

CHINESE SACRED LILY OR "JOSS FLOWER."

The Chinese Sacred Lily, or Sacred Lily of Japan, which is the Chinese Emblem of Good Luck, is really a Narcissus of the Polyanthus type, but unlike the varieties known of this group, the Chinese Sacred Lily produces very large bulbs, which throw up from five to ten flower spikes, bearing clusters of large, perfect, waxy-white blossoms with yellow centers, of a most delicious fragrance. They grow well in pots in a light and sandy soil, but the most successful way of cultivating is as the Chinese do it—in water—which is as follows: Place the bulb in a bowl, which is filled up with one inch of fine gravel and fill in enough pebbles to hold the bulb in an upright position, then fill the bowl about one-half with luke-warm water and place it in a window, on a table, mantel-piece, or anywhere in the sitting-room or parlor. The bulbs will at once begin a vigorous growth, and be in full bloom three to four weeks after they are planted. The water should be renewed once a week. It is the most easily grown and satisfactory bulb for house or window culture that we know of. Flowers freely, and can be planted at any time. It seldom fails, even with the most careless cultivators, and taken all in all, the bulb is like the nation from which it comes, a remarkable one. Price, for bulbs to bloom at once, 20 cents each; three for 50 cents.

GREVILLA ROBUSTA.

A very ornamental plant, with fern-like foliage. Makes handsome specimens to group with Ferns, Palms, and other ornamental plants. Price, 10 cents each.

CYPERUS ALTERNAFOLIUS—Umbrella Plant.

Cyperus Alternafolius.

This is a plant of the easiest culture, and a large specimen is as handsome as a Palm for decoration. It makes a handsome pot plant, or can be used in baskets or vases, making a charming effect. It will grow luxuriantly in water, and is, therefore, indispensable for aquariums or fountains. Try it. It is a handsome, easy-growing plant. Price, 10 cents each; three for 25 cents.

POMEGRANATES.

These are handsome hard wood shrubs, with beautiful flowers, of the easiest culture. Hardy in the South. In the North winter in the cellar. We have two kinds, the crimson and white. Price, 10 cents each.

EPIPHYLLUM, OR LOBSTER CACTUS.

A wonderfully free bloomer, frequently blooming three or four times during the year. Of drooping, weeping habit, the flowers are bright and beautiful. It is of the easiest culture, and will bloom for everybody, and we can recommend it as being very handsome. Price, 10 cents each.

Lilies.

No class of plants capable of being cultivated out of doors possesses so many charms as the Lily. Rich and varied in color, profuse in variety, and of delicious fragrance, they are perfectly hardy and of the easiest culture, and no garden should be without a few of the best sorts.

Lilium Auratum.—(Golden-rayed Queen of Lilies.) This is the grandest Lily grown and a never-failing delight. We take pleasure in showing it to people who have never seen it. It seldom fails to create a sensation. The perfume is exquisite—light, yet penetrating. Magnificent by daylight, but by moonlight a well grown plant, carrying five or more blooms, is simply indescribably beautiful. Also known as "Gold-banded Lily from Japan." Price, 25 cents each; five for \$1.00.

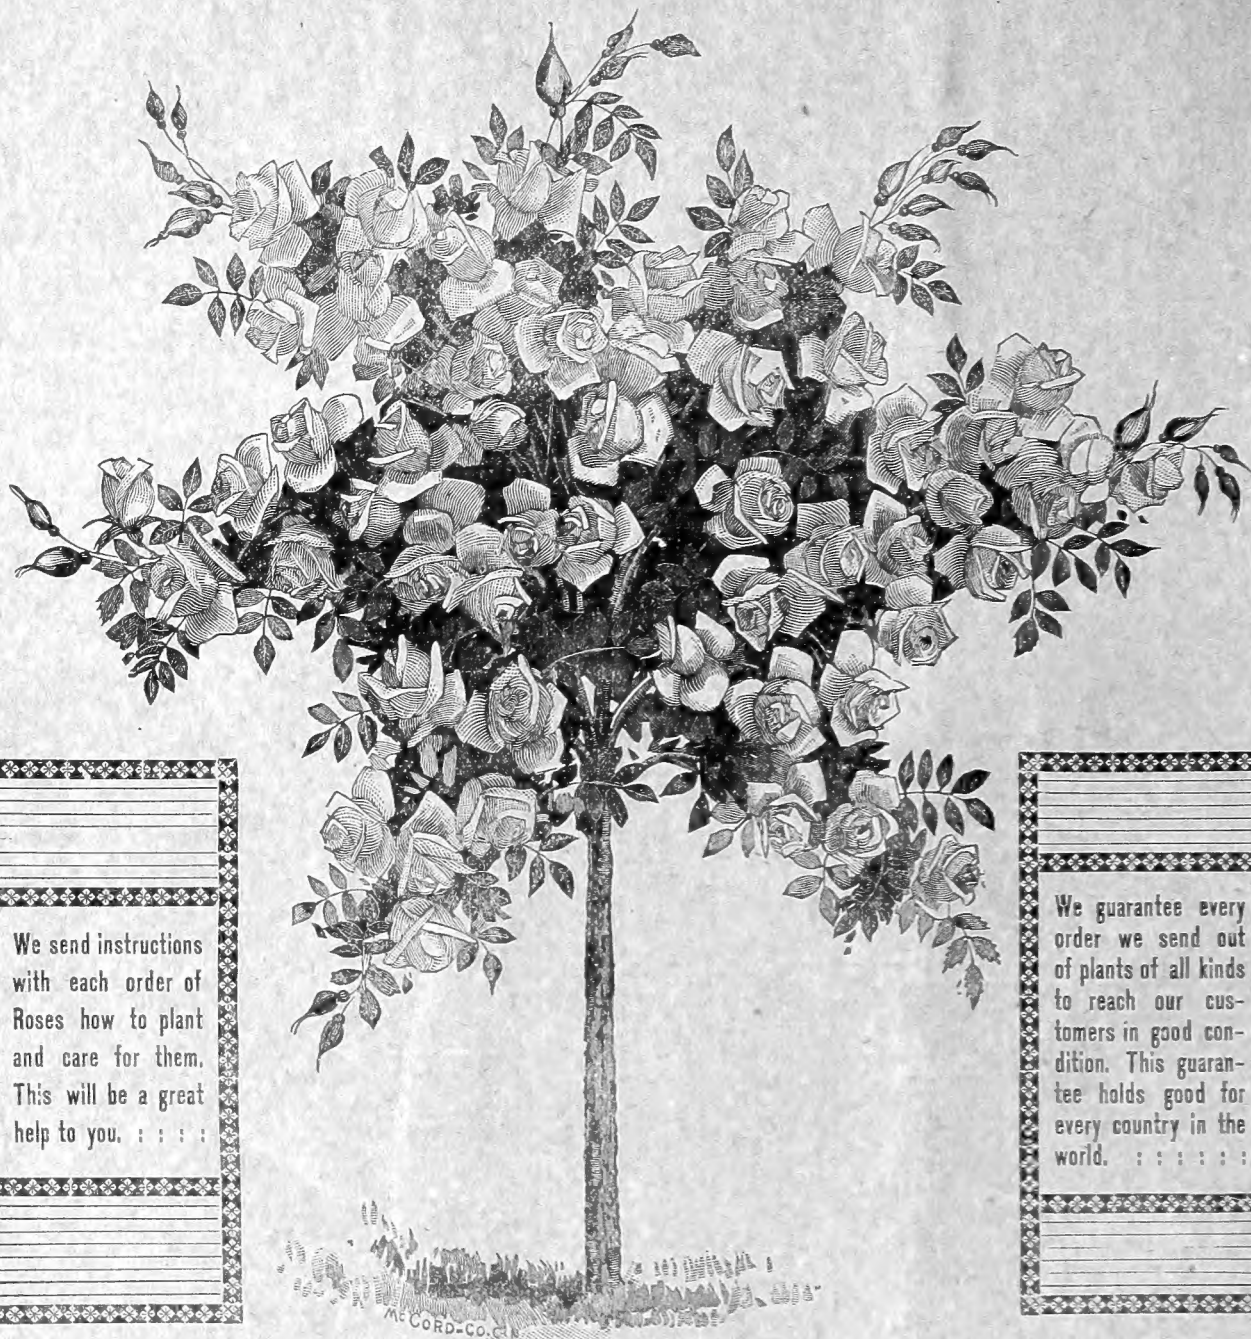

Harrisii.—(The Bermuda, or Easter Lily.) Pot and treat the same as for Hyacinths. Each Bulb will give from six to twelve flowers, in many cases many more. And not content with that effort, it often throws up a second stalk bearing flowers, thus continuing its season of beauty. The flowers are fully six inches in length, of the purest white, and of the most delicious fragrance. Price, fine bulbs, 20 cents each; three for 50 cents.

Candidum.—The well-known hardy garden Lily. Snow-white, fragrant blossoms. One of the best, and an established favorite. Price, 20 cents each; three for 50 cents.

Tigrinum Flora Plena.—Bright orange, spotted black and very double. Price, 25 cents each, five for \$1.00.

Speciosa Rubrum.—A beautiful bright rose, spotted with a rich, velvety-crimson. Price, 25 cents each; five for \$1.00.

* TREE ROSES *

We send instructions with each order of Roses how to plant and care for them. This will be a great help to you. : : : :

We guarantee every order we send out of plants of all kinds to reach our customers in good condition. This guarantee holds good for every country in the world. : : : : :

These Tree Roses we import from Holland. They are grafted on Rose stalks about five feet from the ground, and resemble a tree, as they have no branches that grow below where they are grafted. They are perfectly hardy, and make handsome ornaments for the yard or Rose garden. Also useful for cemetery planting. The cut above shows a Tree Rose in full bloom. They are certainly very attractive.

We have them in White, Yellow, Crimson, Pink and Scarlet. Name the colors you desire when ordering. Price, for strong, fine trees, four to six feet high, \$1.50 each, or two for \$2.50.

We have Tree Roses with two colors grafted on them. They look lovely when in bloom. Half the tree is pure white and half pink, or half red and half yellow. We can send any two colors you desire. Price, \$2.00 each, or two for \$3.50.

For prices of large two-year-old Roses see our mammoth one hundred and four page catalogue, a copy of which will be mailed for 10 cents. It has a colored plate of the wonderful new Rose Gen. R. E. Lee. Be sure to see it.
